

# AAGP

## 2021 Annual Workshop

**You are invited to join us online on June 7<sup>th</sup>, 9<sup>th</sup>, and 11<sup>th</sup>**

Every year the Atlantic Association of Geomatics & Planning presents an annual workshop for its members, offering professional development and networking opportunities. In 2020, the AAGP rebranded and expanded its scope to include a broad range of geomatics technical practitioners. Due to COVID-19, this year's workshop will be virtual, and we are excited to offer free registration.

Visit [aagp.ca/workshops](https://aagp.ca/workshops) for more information and updates.

### Interested in Participating?

We are seeking presentations from post-secondary institutions across the country which offer programs in GIS, land use planning, environmental management, cartography, forestry management, and other land management disciplines. This year's virtual workshop provides an excellent opportunity for your school and students to be promoted to a large group of geomatics professionals.

**If you are interested in participating, please let us know by April 19<sup>th</sup>.** School profiles, student projects, technical demonstrations – all are welcome! Presentations are to be 10-15 minutes in length. Your presentation must be submitted as a pre-recorded video by May 17<sup>th</sup>. One student presenter will be selected by the Education Committee for free registration to our 2022 in-person Workshop!

Please contact Tyler Veinot, Education Committee Chair, with any questions. [tylerkveinot@gmail.com](mailto:tylerkveinot@gmail.com)
