

Health Canada and the departments of health in each of the four Atlantic provinces are working at several sites to assess workplace-based processes to enhance skills for delivering team-based services.

As part of this project, we would ask you to rank 12 statements below:

| Statement | Strongly Agree | Agree | Undecided | Disagree | Strongly Disagree |
|--|----------------|-------|-----------|----------|-------------------|
| 1. I have good negotiation skills. | | | | | |
| 2. The facilitators in the Healthy Baby and Me program in New Brunswick respect and trust each other. | | | | | |
| 3. I am aware of the roles of organizations and individuals whose work complements the Healthy Baby and Me program in my region. | | | | | |
| 4. The administration of the Healthy Baby and Me program in the province could be improved through group learning activities. | | | | | |
| 5. Patients/clients would ultimately benefit if professionals in the health sector and other sectors work together. | | | | | |
| 6. Other program facilitators in the Healthy Baby and Me program in New Brunswick are effective at conflict management | | | | | |
| 7. I am clear on what my role is in the Healthy Baby and Me program. | | | | | |
| 8. I have used case studies to learn new skills. | | | | | |
| 9. I am better able than other program facilitators of the Healthy Baby and Me program to keep up with changes to policies and/or health care technologies | | | | | |
| 10. I have to acquire more team-work skills than other program facilitators in the Healthy Baby and Me program in New Brunswick. | | | | | |
| 11. Participating in learning activities with other program facilitators of the Healthy Baby and Me projects will help me to communicate better with patients and health professionals in my region. | | | | | |
| 12. I have benefited from professional development courses. | | | | | |

Your answers will be confidential; we would ask however, that you identify yourself by name.
