Head of St. Margaret's Bay, Nova Scotia
B3Z 1Y9

Dear Dr. Saunders and Ms. Murdoch:

**Re: Collaborative Learning Environments for Health Professionals:
James Paton Regional Health Centre**

Thank you for your information. We have reviewed your application and are pleased to grant you approval to proceed with your research here at Central Health.

Your project provides a valuable opportunity to develop, implement and evaluate innovative approaches to enhancing the skills of health professionals to work collaboratively with each other, and with patients, their families, care providers and communities in order to deliver the highest quality of care. The nature of this work most appropriately aligns with our Chief Operating Officer of the James Paton Memorial Health Centre. As such, we have identified **Ms. Sherry Freake, Chief Operating Officer**, to act as your key Central Health contact person for this project.

Ms. Sherry Freake
sherry.freake@centralhealth.nl.ca
(709) 256-5531

The nature of your project is certainly of interest to Central Health and as part of our monitoring and follow up of research activities, the Authority is interested in a copy of the findings of your research. To this end, would you please consider providing us with a copy of your research findings when completed?

Thank you for your interest in conducting research in the Central area, please contact me with any questions.

Kindest regards,

Doug Prince,
Central Health Ethics Committee, Acting Chair
