

Collaborative Learning Environment Project (CLE)

Presented by: Jennifer Murdoch RN, RM, MHSc
Project Lead AACHHR
November 2010

What is the CLE?

- Funded by Health Canada – AACHHR Project
- A model to provide well woman, low-risk obstetrical community based shared-care to women and their families.
- Achieved by linking the unique skills and collaborative efforts of practitioners

Health Canada's definition

- *“Collaborative patient-centred practice is designed to promote the active participation of each discipline in providing quality patient care. It enhances patient and family-centred goals and values, provides mechanisms for continuous communication among care givers, optimizes staff participation in clinical decision making (within and across disciplines), and fosters respect for the contributions of all disciplines.”*

The Sites

- **As of December 2010 there are four identified sites:**
 - **GASHA in Antigonish, NS**
 - **Labrador West Health Region NL**
 - **VON Well Baby and Me in Miramichi City and Sussex**

Agreement with Sites

- **Partnership Agreements (PAs)**
 - **The GASHA site is complete;**
 - **the NL site PA is drafted**
 - **PA for VON NB is complete**
- **All sites have identified clinical leads and site champions have been identified.**

Miramichi site – VON

UPDATE:

- Advisory Committee involvement
- Interprofessional team from the VON Healthy Baby and Me program
- Advisory team works in clinical practice
- Approach for this site may be less program centric and more community centric.

GASHA site

□ MOReOB

- front end change approach to IP rather than the end approach to IP that MoreOb has traditionally taken.
- Attended a Moncton Module 1 workshop
- Presentation of results on Dec 17
- Module 2 on Jan 25, 2011.

GASHA con't

- IP and Clinical Services
 - Forms have been developed and integrated into the GASHA charts
 - All charts will be coded for purpose of data collection

Labrador City West

- Home Care and Emergency Services
- Collaborative team

KTE and Government Advisory

- New Government Advisory group set up in NL
- NL Nurses Association has requested a presentation - pending
- Reports to Health Canada and visit to NS on November 2
- Pending funding

Evaluation

- Ethics Approval for GAHSA and Labrador City granted-not required for VON, NB sites;
- Needs assessment data collection has been completed at all sites;
- Contextual and Implementation Process Data collection from all sites underway & ongoing

Thank you
