A Word of Welcome by Prof. Tetley to His Website

Welcome to the maritime law website
www.mcgill.ca/maritimelaw.

The website strives to be a useful source of information on maritime law matters. It also has a popular Guestbook where individuals from all over the world, maritime lawyers, shipbrokers, freight forwarders and experts, have left their interesting insights. I invite all visitors to the site to leave their comments on the Guestbook.

Much has been happening in the field of maritime law since the publication twenty-one years ago of Tetley's Marine Cargo Claims, 3 Ed., 1988. The surge in the international trade of goods has seen an industry completely transformed and reinvigorated beyond recognition...
