When a team is being formulated, initial thoughts of potential members are drawn towards those who have demonstrated a commitment to the movement, most notably by their attendance at Ultreyas. However, we realize that there could be several reasons why an individual might not be attending the Ultreyas and if this describes you please indicate briefly on the back of this form why: i.e. if it is a matter of a conflict in your scheduling, please simply indicate by stating “*a conflict in timing*”, if it is for another matter such as distance to the Ultreya or another particular challenge, please indicate in a little more detail, as this would help the Secretariat in attempting to address the issue.
