

ENVIRONMENTAL PROTECTION

ABOUT DSS PROTECTION

We are a Canadian-owned and operated group of companies, with sales and service stations in Nova Scotia, Newfoundland & Labrador, Québec, and British Columbia.

PROTECTING WATER RESOURCES

Our team supplies and services environmental protection systems, designed to prevent, contain, recover, and store, oil and chemicals in a marine environment. We also offer water treatment solutions such as baffle systems, used to control water flow and retention time.

Our equipment is deployed in communities across Canada, carefully selected by operators due to reliability and ease of operation.
