LIFERAFTS

INFLATABLE LIFERAFTS

- Proudly assembled in Canada
- For use on all types of commercial vessels
- Made of durable, rubber composite material
- Transport Canada & SOLAS Approved
- Round and Flat GRP protective container
- Equipment Packs: SOLAS Pack A or SOLAS Pack B
- High Visibility Canopy with SOLAS reflective tape

AFTER SALES SERVICE

Liferafts on commercial vessels must be serviced annually. Our approved service stations stock spare parts to ensure that you can receive fast, convenient service at a service station that suits you. We would be pleased to arrange service for your liferafts. Our facilities are audited and inspected by DNV, LR, TC and QMI.

Please contact our service department for details or to book your service.

service@dssprotection.com

INFLATABLE LIFERAFT: ROUND-PACK CONTAINER

Part No.	Description
FW-LRS06-A	Liferaft, 6psn TC/SOLAS, Round - A Pack
FW-LRS08-A	Liferaft, 8psn TC/SOLAS, Round - A Pack
FW-LRS10-A	Liferaft, 10psn TC/SOLAS, Round - A Pack
FW-LRS12-A	Liferaft, 12psn TC/SOLAS, Round - A Pack
FW-LRS16-A	Liferaft, 16psn TC/SOLAS, Round - A Pack
FW-LRS20-A	Liferaft, 20psn TC/SOLAS, Round - A Pack
FW-LRS25-A	Liferaft, 25psn TC/SOLAS, Round - A Pack

INFLATABLE LIFERAFT: FLAT-PACK CONTAINER

Part No.	Description
FW-LRL04-A	Liferaft, 4psn TC*, Flat - A Pack
FW-LRL06-A	Liferaft, 6psn TC/SOLAS, Flat - A Pack
FW-LRL08-A	Liferaft, 6psn TC/SOLAS, Flat - A Pack
FW-LRL10-A	Liferaft, 6psn TC/SOLAS, Flat - A Pack
FW-LRL12-A	Liferaft, 6psn TC/SOLAS, Flat - A Pack
FW-LRL16-A	Liferaft, 6psn TC/SOLAS, Flat - A Pack

*Non-Solas reduced capacity liferaft

AVAILABLE PACK CONFIGURATIONS

- B PACK
- C PACK
- COASTAL PACK

DAVIT-LAUNCHED LIFERAFTS

- Proudly assembled in Canada
- For use on all types of vessels utilizing davit launch systems
- Made of durable, rubber composite material
- Transport Canada & SOLAS Approved
- Round GRP protective container with easy access Davit Hook Port
- High visibility canopy with SOLAS reflective tape
- Equipment Packs: SOLAS Pack A or SOLAS Pack B
- High Visibility Canopy with SOLAS reflective tape

DAVIT-LAUNCHED LIFERAFTS

Part No.	Description
FW-LRD12-A	Liferaft, 12psn TC/SOLAS, Davit-Launched, Round - A Pack
FW-LRD16-A	Liferaft, 16psn TC/SOLAS, Davit-Launched, Round - A Pack
FW-LRD20-A	Liferaft, 20psn TC/SOLAS, Davit-Launched, Round - A Pack
FW-LRD25-A	Liferaft, 25psn TC/SOLAS, Davit-Launched, Round - A Pack

AVAILABLE PACK CONFIGURATIONS

- A PACK
- B PACK
- C PACK
- COASTAL PACK

INFLATABLE RESCUE PLATFORM LIFERAFTS

- Proudly assembled in Canada
- For use on all types of commercial vessels
- Standard round GRP protective containers. Low profile also available upon special request
- Made of durable, rubber composite material
- Transport Canada Approved
- High Visibility ballast bags with reflective tape

INFLATABLE RESCUE PLATFORM LIFERAFTS

Part No.	Description
FW-LPR22-C	Inflatable Rescue Platform, 22psn, Round* - C Pack
FW-LPR37-C	Inflatable Rescue Platform, 37psn, Round* - C Pack
FW-LPR45-C	Inflatable Rescue Platform, 45psn, Round* - C Pack
FW-LPR75-C	Inflatable Rescue Platform, 75psn, Round* - C Pack
FW-LPR99-C	Inflatable Rescue Platform, 99psn, Round* - C Pack

*Low Profile available upon request

AVAILABLE PACK CONFIGURATIONS

- B PACK
- C PACK
- COASTAL PACK

LIFERAFTS CONT.

PLEASURE CRAFT LIFERAFTS

- Proudly assembled in Canada
- Perfect fit for Yachters, Racers, Recreational Cruisers, or some smaller inshore commercial vessels which may not be required to have a liferaft, but want to improve their safety
- Completely race ready
- Made of durable, rubber composite material
- High visibility Canopy with reflective tape
- Flat low profile GRP protective container or soft sided valise
- Certified according to ISO 9650 standard

INFLATABLE LIFERAFT: FLAT-PACK CONTAINER

Part No.	Description
FW-LRY04-I-G	Liferaft, 4psn ISO, Container* - Pack I
FW-LRY06-I-G	Liferaft, 6psn ISO, Container* - Pack I
FW-LRY08-I-G	Liferaft, 8psn ISO, Container* - Pack I
FW-LRY10-I-G	Liferaft, 10psn ISO, Container* - Pack I

*Available in flat low profile GRP protective container or soft sided valise

INFLATABLE LIFERAFT: FLAT-PACK CONTAINER

Part No.	Description
FW-LRY04-II-G	Liferaft, 4psn ISO, Container* - Pack II
FW-LRY06-II-G	Liferaft, 6psn ISO, Container* - Pack II
FW-LRY08-II-G	Liferaft, 8psn ISO, Container* - Pack II
FW-LRY10-II-G	Liferaft, 10psn ISO, Container* - Pack II

*Available in flat low profile GRP protective container or soft sided valise

AVAILABLE PACK CONFIGURATIONS

- A PACK
- B PACK
- Offshore Liferaft
- Inshore Liferaft

PLASTIMO STANDARD CRUISER LIFERAFTS

The Cruiser raft is specifically designed for cruising and comes in different equipment options.

- The Cruiser Standard features a simple bottom.
- The Cruiser ORC and ORC+ models include a double insulating bottom for added protection.

Part No.	Description
PL-9990-231	Plastimo Standard Cruiser Liferaft 4 Person, Valise
PL-9990-331	Plastimo Standard Cruiser Liferaft 4 Person, Container
PL-9990-850	Plastimo Standard Cruiser Liferaft 6 Person, Valise
PL-9990-851	Plastimo Standard Cruiser Liferaft 6 Person, Container

PLASTIMO TRANSOCEAN ISO LIFERAFTS

Built for extreme conditions, the Plastmo Emergency Survival Pack liferaft is rated to -15°C and features a double insulated floor, high-visibility orange canopy with auto-erect arch, exterior light, and retro-reflective strips. Stability is enhanced with large ballast pockets and drogues. A reversible, ballasted ladder and grab handle ensure easy boarding and allow righting if inverted.

Available with two equipment options: a Standard Pack for rescues within 24 hours, or an Emergency Pack with added food, water, flares, torch, and thermal protective aids for extended survival.

Part No.	Description
PL-9990-775	Plastimo Transocean ISO 4 Person, Valise
PL-9990-776	Plastimo Transocean ISO 4 Person, Container
PL-9990-332	Plastimo Transocean ISO 6 Person, Valise
PL-9990-230	Plastimo Transocean ISO 6 Person, Container

LIFERAFTS CONT.

Plastimo Transocean ISAF/OSR LIFERAFTS

Designed for offshore and blue water racing, this ISAF-based liferaft delivers maximum safety in extreme conditions. It features -15°C inflation, a double insulated floor, high-visibility orange canopy with auto-erect arch, external light, retro-reflective strips, and large ballast pockets with drogues for stability. A boarding ramp with internal grab handle ensures easy entry.

Available with a Standard Pack for rescues within 24 hours, or an Emergency Pack with added food, water, flares, torch, and thermal protective aids for extended survival.

A grab bag can also be included. Check race requirements to confirm grab bag contents.

Part No.	Description
PL-9990-777	Plastimo Transocean OSR ISO Liferaft, 4 Person, Container
PL-9990-778	Plastimo Transocean OSR ISO Liferaft, 6 Person, Container
PL-9990-779	Plastimo Transocean OSR ISO Liferaft, 8 Person, Container

SAFETY BUNDLES

SMALL FISHING VESSEL SAFETY PACKAGES

Contact us to build a custom safety package tailored your customers

4 - PERSON SAFETY PACKAGE

Quantity	Description
1	4-Person Flat-Pack Liferaft, pack A
1	Aluminum Liferaft Cradle & Lashing
3	Immersion suits, Universal Size
1	GPS EPIRB

6 - PERSON SAFETY PACKAGE

Quantity	Description
1	6-Person Flat-Pack Liferaft, pack A
1	Aluminum Liferaft Cradle & Lashing
3	Immersion suits, Universal Size
1	GPS EPIRB

For either package, customers may choose to purchase size XL suits for an additional fee.

EMERGENCY SAFETY EQUIPMENT

SAFETY EQUIPMENT

Survival Craft, such as Liferrafts (inflatable & rigid), Rescue Boats, and Life Boats must have their Survival Equipment checked regularly by the ships crew or inspectors.

Occasionally, it is required for equipment to be replaced in order for the Survival Craft to remain sea worthy and pass steamship Inspection.

Part No.	Description
CM-1631	Parachute Rocket (Red)
CM-1628	Hand Flare (Red)
CM-1920	Floating Smoke Signal
DN-70-001A	Signaling Flashlight
FW-BP010	Signaling Mirror

LIFERAFT HRUs

HAMMAR H20 HYDROSTATIC RELEASE UNIT

The Hammar H20 is designed to fit liferafts of all shapes and sizes. The Hammar H20 needs no annual service, maintenance or spare parts.

**MUST BE REPLACED
AFTER 2 YEARS**

Part No.	Description
HM-HR-0200	Hammar HRU 4-12 Person
HM-H20HRU	Hammar HRU 6-150 Person

THANNER HYDROSTATIC RELEASE UNIT

Thanner Disposable Hydrostatic Release Unit (HRU) is approved to the new MED and SOLAS regulations together with ships wheel approval, USCG, TC and many others. The units are made from anodized aluminum and UV- resistant plastics to meet the tough requirements of the marine environment. The units operates independently of the life raft buoyancy and is approved for any size of life raft up to a buoyancy load of 1500kgs. All parts can be recycled and are made from non-toxic materials.

**MUST BE REPLACED
AFTER 4 YEARS**

Part No.	Description
TH-DK2010	Thanner HRU 4 years

THANNER SERVICABLE HYDROSTATIC RELEASE UNIT

Thanner Serviceable Hydrostatic Release Units are designed for heavy duty installations, reliable function, and no limited lifetime if serviced regularly. Service intervals follow the raft servicing. The units can be manually released and reset for continued service.

Part No.	Description
TH-DK84.1	Thanner HRU Servicable

PYROTECHNICS

PARACHUTE ROCKET

The Parachute Signal Rocket is designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water.

Part No.	Description
CM-1631	Red Parachute Rocket, COMET
PW-50636	Red Parachute Rocket, Pains Wessex

HAND FLARE

Short range distress signal used to pinpoint position. For use in day and night.

Part No.	Description
CM-1628	Red Hand Flare, COMET
PW-52905	Red Hand Flare, Pains Wessex

MOB LIGHT & SMOKE SIGNAL WITH BRACKET

Produces dense orange smoke for 15 minutes and 2 LED lights burn at 2 candela for 2 hours minimum. Signals location of a man overboard by day or night.

Part No.	Description
CM-1816	MOB Light & Smoke Signal, COMET
PW-53780	MOB Light & Smoke Signal, Pains Wessex

SMOKE SIGNAL

Comet Smoke Signal Orange is a small and compact distress signal for daylight use only. Signal for position marking during rescue operations. Indicates wind direction. Safe to use on oil or petrol covered water.

Part No.	Description
CM-1920	Orange Smoke Signal, COMET
PW-53700	Orange Smoke Signal, Pains Wessex

LINE THROWER 250

The Line Thrower 250 is designed for ease of operation in the most extreme weather conditions. It can be used in all situations where a line is required to be passed accurately and quickly.

Part No.	Description
CM-1605	Line Thrower Body & Line
PW-50081	Line Throwing Rocket
CM-1604	Line Throwing Device Complete

Watertight Container

Rugged, buoyant containers, ideal for storing distress signals. Can be easily picked up in an emergency.

Part No.	Description
CM-1280	Watertight Container

12GA FLARE LAUNCHER KIT

The kit includes a durable, easy use pistol and 6 red cartridges. It is packaged in a durable, water resistant compact case with two thumb latches and a convenient carry handle.

Part No.	Description
CM-1774KIT	12GA Flare Gun Kit, Type B, with Case
CM-1774KIT1	12GA Flare Gun Kit, Type B Blister
CM-1774	Replacement 12GA Cartridge, Type B Twin Star

SKY-LITE AERIAL FLARE

Compact leisure rocket with 2 free-falling red stars. For use in day and night long range distress signal situations.

Part No.	Description
CM-1228	Sky-Lite, Type B Aerial Flare
CM-1228-3PK	Sky-Lite, Type B 3 Pack
CM-1228-6PK	Sky-Lite, Type B 6 Pack

Illumination Rocket

A day or night collision warning signal, or used at night to illuminate areas for search and rescue operations.

Part No.	Description
CM-1237	Illumination Rocket

FREE FLARE DISPOSAL

We will dispose of any brand of Type A, B, C, or D Marine Pyrotechnic Flares FOR FREE with the purchase of equal quantity COMET or PAINS WESSEX brand Marine Pyrotechnic.

DAY & NIGHT SIGNAL

Compact, handheld distress signal consisting of a red flare at one end and an orange smoke in the other. Housed in a rugged, corrosion-resistant case. Compact, double-ended signal, ideal for personal use and in small craft, kayaks, windsurfers and aviation

Part No.	Description
PW-55970	Day & Night Signals

PNEUMATIC LINE THROWERS

The PLT line thrower can be re-used, has no expiry, does not use explosives, and is rugged enough for use in all weather conditions.

RESTECH RESCUE 230 PLT®

The PLT® Rescue 230 meets the IMO SOLAS regulation 74/96. There is no expiry date which means it will stay on board for the life-time of the vessel

Part No.	Description	Distance
RT-2000	Restech Rescue 230 PLT	230 Meters

RESTECH RESCUE 150 PLT®

Ideal for quick response operations for standby or rescue vessels that uses the PLT® Launching unit.

Part No.	Description	Distance
RT-3000	Restech Rescue 150 PLT	150 Meters

RESTECH 150 PLT®

The 150 Projectile has a rubber tip to protect and minimize impact when landing. It is commonly used for medium range mooring operations and general line transfer. Depending on your line requirements the launching distance will vary.

Part No.	Description	Distance
RT-5000	Restech 150 PLT	150 Meters

RESTECH 75 PLT®

The PLT® 75 increases your safety zone for your equipment and personnel. It is commonly used in mooring, towing, ship to ship and general line transfer operations.

Part No.	Description	Distance
RT-6000	Restech 75 PLT	120 Meters

RESTECH SOLAS PLT®

The PLT® Solas set is our newest Pneumatic Line Thrower specifically made to comply with IMO SOLAS 74/96 regulations. For vessels only looking to comply with the regulation, the PLT® Solas set is the logical product to have.

Part No.	Description
RT-2800	Restech SOLAS PLT

RESTECH MINI PLT®

The PLT® Mini is a light weight shoulder launched line thrower. It is very popular among users both at sea and on land, who requires a mobile line thrower.

Part No.	Description
RT-4000	Restech Mini PLT with case

IMMERSION SUITS

HANSEN SEAECO+ IMMERSION SUIT

- Buoyancy pillow ensures correct floating position and free-board
- Flame Retardant 5mm neoprene
- Listing strap with stainless ring and carabiner hook
- Easily donned, waterproof PU-zip
- Rubber soles for optimal grip on slippery surfaces
- Inspection Schedule: Every 3 years from the date of manufacture, then every year at 10 years.

Part No.	Description
HN-82609-55290-M	Hansen SeaEco+ Med
HN-82609-55290-STD	Hansen SeaEco+ Universal
HN-82609-55290-XL	Hansen SeaEco+ Jumbo

LIFEJACKETS & ACCESSORIES

FITZWRIGHT LIFEJACKET KEYHOLE TC/SOLAS

This basic block foam design makes storage easy and familiar to all who wear it. Articulated for multiple folding and storage configurations. Also increases comfort around the neck during wear.

RETRO REFLECTIVE TAPE

Our tape has been specially designed for the marine and off shore industry to ensure long durability, high brightness and anti-delamination. All products are comprised of an encapsulated lens optical design that provides high reflectivity over a wide range of entrance angles, whether dry or wet.

Part No.	Description
----------	-------------

TM-3150A	Retro-Reflective Tape, SOLAS
----------	------------------------------

CREWSAVER LIFEJACKET SEACREWSADER 275N

Suitable for abandonment purposes as well as extreme working situations, the Seacrewsader is designed for easy donning and comfort when working. The high buoyancy level provides added protection when heavy work gear and clothing is worn. Each of the two chambers is fitted with a 60g CO2 cylinder and 1.5 psi relief valve ensuring full buoyancy is achieved during single or double chamber inflation.

PERSONAL FLOATATION DEVICES

FitzWright A/M-24 Auto/Manual Inflatable PFD

The FitzWright A/M-24 Auto/Manual Inflatable PFD is simple, cost effective and comfortable. The perfect solution for constant wear safety when you are on or near the water.

- Automatically inflates upon immersion in water or when the wearer pulls the "Pull to Inflate" handle
- Equipped with back-up oral inflation
- Provides comfort, safety and peace of mind without knowing you have it on, until you may need it
- Comfortable, lightweight, low profile design
- Soft neoprene neckline for all day comfort
- Durable fabric resists tears and punctures
- For persons 16 years of age and older, and over 80 lbs.
- Not recommended for non-swimmers or weak swimmers
- Minimum buoyancy of 22.5 lbs. when inflated
- Transport Canada approved PFD

Part No.	Description
FW-AM24-B	FitzWright A/M 24 Inflatable PFD
A0-24G	24g C02 Re-arming Kit

FitzWright A/M-24 Auto/Manual Inflatable PFD

The FitzWright Hi-Vis Deluxe Floatation vest offers floatation AND increased visibility, making this PFD a must for aquaculture technicians and construction workers.

- ANSI Compliant - Class II and CSA approved options.
- Transport Canada approved.
- Opening in back to accommodate most fall harnesses.
- Contoured foam for freedom of movement.
- Encircling belts with zipper closure.
- Hidden belts to reduce snags.
- Dual cargo pockets with fleeced-lined handwarmer pockets.
- Contrasting stitching on belts for more efficient vessel checks.
- Minimum 15.5 lbs. of buoyancy.

Part No.	Description
FW-PFD1508-X-HV	PFD FW Mesh Hi-Vis

PFDs CONT.

FITZWRIGHT MESH DELUXE WORK VEST

The FitzWright Mesh Work PFD is our best overall value. The Mesh shoulders provide great comfort and reduce heat. Addition of two pockets for increased utility make this a fantastic work vest.

Part No.	Description
FW-PFD1508-X	FitzWright Mesh Deluxe Work Vest

FITZWRIGHT COMMERCIAL VEST

The FitzWright Commercial Vest is a universal (one size), Transport Canada approved, personal flotation device. This vest is a great economical option, and is lightweight and durable.

Part No.	Description
FW-PFD1500-U	PFD FW Comm. Org. Universal TC/CCG

FITZWRIGHT SAR FLOATATION VEST

The FitzWright SAR flotation vest offers safety, floatation, and lots of utility with features that make this PFD a must for Search and Rescue technicians, or Fast Rescue Craft operators.

Part No.	Description
FW-PFD1510-X	FitzWright SAR Floatation Vest

FITZWRIGHT ROGUE BUOYANCY AID

The FitzWright Rogue Buoyancy Aid floating work vest boasts minimal bulk, maximum flexibility, reduced snag hazard, and offers buoyancy for aid for added safety in case of falling overboard.

Part No.	Description
FW-ROGUE-X	Buoyancy Aid FW Rogue blk

LIFEBUOYS & LIFEBUOY LIGHTS

LIFEBUOY, 30"

The FitzWright SOLAS Lifebuoy is manufactured from durable polyurethane filled foam. All rings are molded from high impact linear low-density polyethylene for superior life expectancy in the most severe environments. Buoyancy comes from buoyant foam core.

Part No.	Description
PB-1831504	Lifebuoy, 30", 2.5kg
PB-1831503	Lifebuoy, 30", 4.0kg

LIFEBUOY, 24"

The FitzWright SOLAS Lifebuoy is manufactured from durable polyurethane filled foam. All rings are molded from high impact linear low-density polyethylene for superior life expectancy in the most severe environments. Buoyancy comes from buoyant foam core.

Part No.	Description
FW-PB1831506-O	Life Ring, 24in, Orange
FW-PB1831506-W	Life Ring, 24in, White

L170 LIFEBUOY LIGHT

The L170 Lifebuoy Lights offer a five year life. No maintenance or replacement batteries are required.

Part No.	Description
FW-61010A	L170 Lifebuoy Light TC Approved

L90 LED LIFEBUOY LIGHT

The L90 LED uses five alkaline batteries (batteries not included), offering a life of one year. Robust and reliable, the L90 LED is automatically activated after release.

Part No.	Description
DN-63-401A-WB	L90 LED Lifebuoy Light with Bracket
DN-63-4001	L90 Dome Replacement
DN-63-1000	L90 Bulb Replacement
DN-63-4003	L90 Bracket Replacement
DN-63-8005	L90 O-Ring Replacement
WI-BATT-D	D Cell Battery

L161 LIFEBUOY LIGHT

The L161 Lifebuoy Light is intrinsically safe (category 1) and as such is suitable for use in hazardous zones 0, 1 and 2.

Part No.	Description
DN-62-002A	L161 Lifebuoy Light TC Approved

L160 LIFEBUOY LIGHT

The L160 Lifebuoy Light is meticulously designed to meet SOLAS/MED requirements, has a compact design with a 5-year life span and requires no maintenance or battery replacements.

Part No.	Description
DN-62-001A	L161 Lifebuoy Light TC Approved

LIFEBUOY EQUIPMENT

HEAVING LINE BAG

Includes 100 feet of Polypropylene rope inside of a soft canvas bag that is weighted to increase throwing distance.

Part No.	Description
BM-9509	Heaving Bag with 90'/Line

FitzWright Lifering Cabinet

Ensure that lifebuoys are readily available and easily spotted in case of emergencies. The transparent square opening adds an extra layer of convenience, allowing for quick visual checks without compromising the lifebuoy's protection. Buoyant line included.

Part No.	Description
FW-94550	FitzWright Life Ring Cabinet
FW-330160LT	Encapsulated Lifeline for Life Ring

LIFEBUOY RELEASE SYSTEM

Ensure the safety of your maritime operations with the Hammar Lifebuoy Release System Mk II. This complete package is designed for electric/water release, providing a seamless and efficient solution for swift lifebuoy deployment in critical situations.

This comprehensive kit includes all components necessary for electric/water release and operates effectively within a release depth range of 1.5 to 4 meters.

Part No.	Description
HM-0600	Lifebuoy Release System MkII
HM-0630	Rearming Kit

EPIRBs & SARTs

OCEAN SIGNAL SAFESEA EPIRB 3 PRO

The EPIRB3 Pro – a sleek, Category 1 rescue beacon equipped with advanced features. This 406MHz global beacon has a modern design and includes an auto-release float-free bracket for added convenience.

Featuring AIS EPIRB technology, this beacon accelerates rescue operations by supplying local rescuers with accurate location information. The addition of Return Link Services (RLS) ensures the distress signal is received, while Near Field Communication (NFC) capability allows users to monitor the EPIRB's functionality effortlessly through a free smartphone app. Stay secure with the cutting-edge EPIRB3 Pro.

- Most Compact Float Free EPIRB / 30% Smaller
- AIS distress alert.
- Return Link Service (RLS).
- Mobile connectivity utilizing Near Field Communication (NFC).
- Free App (Apple & Android).
- 10-Year battery life
- 48+ hours operational life
- Category I auto release float free bracket
- Secure Lanyard

**SERVICE CHECK
REQUIRED AT 5 YEARS**

Part No.	Description
OS-702S-03933	SafeSea EPIRB3 Pro Auto (Cat 1) AIS, RLS, NFC

OCEAN SIGNAL SAFESEA EPIRB 1 PRO

The SafeSea EPIRB1 Pro operates in the 406MHz satellite band. This EPIRB is fitted with a 121.5MHz homing beacon used by rescue services for close-in location of vessels in distress. In addition, the EPIRB is fitted with a high brightness LED strobe light for additional impact, especially at night.

- Most compact Float Free EPIRB / 30% smaller
- State of the art 66 channel GPS receiver
- Float Free bracket, automatic release housing with Hydrostatic Release Unit
- High intensity strobe lights with 10 Year Battery Life
- Meets or exceeds all International standards including IMO and GMDSS Class 2 EPIRB (-20°C – +55°C) for general use
- Non hazardous battery

**SERVICE CHECK
REQUIRED AT 5 YEARS**

Part No.	Description
OS-702S-03401	SafeSea EPIRB1 PRO Auto (Cat 1) GPS

OCEAN SIGNAL SAFESEA S100 SART

The SafeSea S100 SART is designed to assist in the rescue and recovery of liferafts and survival craft. When switched on, the SART remains in a standby mode until automatically activated by an X Band Radar sweep from any vessel in the vicinity.

- Superior battery life – even at -20°C
- User replaceable non-hazardous battery
- Compact and lightweight
- Supplied complete with telescopic pole and bracket

**REPLACE BATTERY
AFTER 5 YEARS**

OS-710S-00607	S100 SART

EPIRB HRUs

OCEAN SIGNAL EPIRB HYDROSTATIC RELEASE UNIT

Ocean Signal EPIRB HRU: Replacement Hydrostatic Release mechanism for Ocean Signal Cat I EPIRBs. Must be replaced every two years from date of installation. Only this model will fit Ocean Signal Type I housings.

**MUST BE REPLACED
AFTER 2 YEARS**

Part No.

OS-701S-00608

Description

Ocean Signal EPIRB Hydrostatic Release Unit

HAMMAR EPIRB HYDROSTATIC RELEASE UNIT

In an emergency situation the automatic activation of the EPIRB will dramatically facilitate the rescue operation and the possibility to save lives. The Hammar H20 is the most reliable hydrostatic release unit on the market and is used by most leading EPIRB manufacturers.

**MUST BE REPLACED
AFTER 2 YEARS**

Part No.

HM-HE-0100

Description

Hammar EPIRB Hydrostatic Release Unit

PERSONAL LOCATER BEACONS

Ocean Signal rescueMe PLB1

World's Smallest Personal Locator Beacon (PLB)

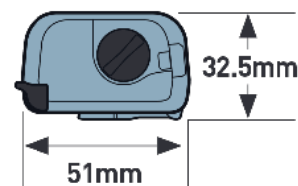

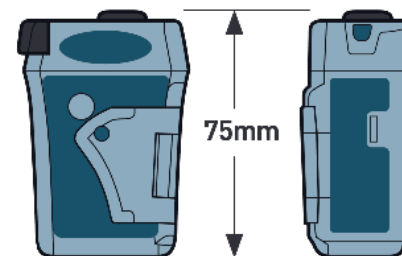

Compact, waterproof, and easy to use, the rescueME PLB1 provides instant access to global rescue services with no subscription fees. Designed for marine safety, it offers reliable GPS positioning and long battery life in a light-weight, wearable device.

Key Features

- 30% smaller than standard PLBs
- 7-year battery life; 24+ hours operation
- Fast, accurate 66-channel GPS
- Bright strobe light for visibility
- One-handed activation with safety flap
- Free global rescue via Cospas-Sarsat

How It Works

When activated, the rescueME PLB1 sends your GPS location and ID via the Cospas-Sarsat satellite network, alerting the nearest Rescue Coordination Center and updating your position until help arrives. Designed for reliability, it features simple one-handed activation—even in tough conditions.

Part No.	Description
OS-730S-01261	Ocean Signal rescueMe PLB1

MAN OVERBOARD DEVICES

WAMBLEE W470 MOB AIS

The W470 MOB AIS is an extremely small and light personal safety device. Working on VHF maritime band as MOB AIS and Homing VHF 121.5 MHz, complete with GPS positioning. This Personal locator beacon with AIS can be worn around the neck by its flexible silicone rubber covered antenna or it can be fitted directly into the lifejacket or lifeboat.

It can be manually activated (by pressing the large button) or automatically through the marine sensors. It is equipped with built-in high efficiency flashing led.

The W470 Personal locator beacon with AIS simultaneously emits a number of SAR signals including an AIS message (AIS MOB on channel 1 & 2) and a homing signal at 121.5MHz in compliance with the ETSI 302961. The emission of several signals which are received by the SAR rescue units, will increase the chances for people in distress to be located.

Part No.	Description
WB-P20042	WamBlee W470 MOB AIS + 121.5MHz

WAMBLEE W420 MOB AIS

The W420 OneMan MOB AIS is an extremely small and light personal safety device, working on VHF maritime band as SART AIS, complete with GPS positioning. It can be worn around the neck by its flexible silicone rubber covered antenna or it can be fitted directly into the lifejacket or lifeboat.

It can be manually activated (by pressing the large button) or automatically through the marine sensors. It is equipped with built-in high efficiency flashing led.

Part No.	Description
WB-P20015	WamBlee W420 MOB AIS Transmitter

SAR HELMETS

MANTA SAR 3 MULTI-ROLE HELMET

The MANTA SAR Multi-Role Helmet is a high performance helmet with numerous options. The MANTA Multi-Role Helmet has a high level of impact protection from both the top and sides. The multifunctional property makes the helmet useful by swift water rescue, fast vessels, jet ski's and water scooters. The helmet is also useful for working on heights or altitude rescue. The helmet is the ideal partner for users or rescue teams for different purposes around or on the water. The MANTA SAR Helmet is tested to 6 different standards making it suitable for a wide range of uses.

Tested to:

- EN14052:2005 High Performance Safety Helmet
- PAS 02:2002 Marine Safety Helmet
- FS/ATV1 Quad & ATV Helmet
- EN352-3:1997 Hearing Protection
- EN166:2002 Industrial Eye Protection
- EN12492:2012 Working at height / Mountaineering

*Decals at additional cost

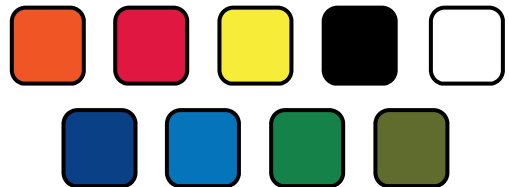

Manta Helmet Options

- Internal Retractable Eye Shield: Smoke or Amber
- Half or Full Length Marine Visor
- Forestry Mesh Visor
- Ear Defender hearing protection

Manta SAR Helmet Specifications

- Impact Protection Crown: 100 joules
- Impact Protection Side / Front / Rear: 90 joules

Colours Available

FIRE FIGHTING EQUIPMENT

OCENCO EEBD M-20.2

The M-20.2 is a self-contained, closed-circuit breathing apparatus. The system activates automatically when the device is removed from the clear case. The demand regulator allows the user to inhale immediately from the device when donned and provides up to 100 liters of oxygen flow during high work rates.

Part No.	Description
SS-FRPL-01	Fire Pail w/ Round Base and Handle, 10L

FIRE AXE

Fiberglass handled fire axe with spike.

FIRE BUCKET

10 Litre capacity and rounded bottom, this fire pail is printed in both English and French for compliance with Regulations.

Part No.	Description
SS-FRPL-01	Fire Pail w/ Round Base and Handle, 10L

FIRE FIGHTING EQUIPMENT CONT.

FIRE ISOLATOR

The Fire Isolator Concept holds 5 elements that, when used together, deliver the best results when fighting EV-fires on board ferries or in car parks:

1. The use of a High Temperature resistant Fire Blanket
2. The use of a Water Mist lance
3. The use of aerosol units that interrupt the chemical chain reactions occurring in the flames and replaces oxygen
4. Training
5. The use of a thermal imaging camera to monitor the temperature of the fire is strongly advised

EV Fire Blanket Blanket

The Fire Isolator Blanket is the best way to control and isolate car fires for All-Electric Vehicles (EVs) as well as normal cars. The Fire Isolator Fire Blanket will directly assist in containing the flames, lowering the temperature, and reduce smoke and toxic fumes. The blanket is temperature resistant up to 1600 °C, and is easy to place over the vehicle because of the coloured loops. This blanket is available in multiple sizes upon request. For lithium batteries, E-scooters and E-bikes we have 2x2 meter and 3x3 meter blankets available.

Aerosol Unit

Our Aerosol Units are lightweight, hand-held units designed to provide portable fire extinguishing. Aerosol Units are perfect for providing control of the situation together with the Fire Isolator blanket, can save valuable time, prevent a flashover and bring the temperature of the fire down dramatically, to around 200 °C.

Water Mist Lance

The Fire Isolator Water Mist Lance is your assistant in quickly and efficiently reducing fires in EV vehicles. By moistening the blanket, the blanket will become nearly gas tight, to save the aerosol cloud and prevent oxygen from coming in. Also the temperature of the fire is lowered.

The Fire Isolator Water Mist Lance can penetrate directly into the battery in an easily accessible location. This method allows water to enter the battery cells directly.

SIGNS & SIGNALS

EVERLUX SIGNS

Everlux Signs are fully compliant with IMO Resolution A. 1116 (30) and ISO 24409 Parts 1,2,3 & 4.

Everlux Low Location Lighting system is in compliance with IMO Resolution A.752 (18).

Product List includes:

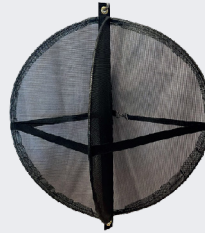

- Means of Escape Signs (MES)
- Emergency Equipment Signs (EES)
- Life-Saving Appliance Signs (LSS) - IMO Signs/Marine Safety Signs
- Signs for Elevators and Lifts
- Fire Control Plan Signs (SIS)
- Fire-Fighting Equipment Signs (FES)
- Low Location Lighting (LLL) System
- Prohibition Signs (PSS)
- Hazard Warning Signs (WSS)
- Mandatory Action Signs
- Information Signs
- ISPS Code Signs
- Signs for Super Yachts
- Water Safety Signs
- Custom Signs

ANTI-SLIP COVERS

SAFEGUARD ANTI-SLIP COVERS

These products provide effective slip prevention for various applications, from walkways and ramps to steps and ladder rungs. Crafted from durable materials like fiberglass, galvanized or stainless steel, and flexible PVC vinyl, Safeguard Technology's solutions are perfect for passenger ferries, Naval & Coast Guard Vessels, and more.

Anti-Slip Walkway and Ramp Covers

Transform any surface into a secure, non-slip environment. Safeguard Technology's pre-made retrofit covers easily install over a variety of existing materials, ensuring safety and adaptability. With options in different shapes, sizes, and flexibility, they seamlessly cater to your unique requirements.

Anti-Slip Step Covers

Step covers provide excellent footing, especially in adverse conditions when steps are wet, icy, or dirty. The anti-slip covers can be customized to your exact application and specifications, and are designed to wrap around the leading edge, where slips are most likely to happen, and cover the proper depth for safe foot traffic.

Anti-Slip Ladder Rung Covers

Ladder rungs, with their small foot surface, are prone to slips. Safeguard's anti-slip ladder rung covers significantly improve safety by providing firm-footed traction from top to bottom. Available in channel-shaped and half-round styles, they offer retrofit or OEM options with adhesive, mechanical, or welded installation.

BOAT SINK PREVENTION

ANTISINK ALL-IN-ONE

This boat sinking prevention system features specially designed cassettes, housing buoyancy bags that are engineered to counter the forces of capsizing or sinking. The inflatable pillows have a filling rate of less than 90%, which gives them the flexibility to adapt to their shape in the area they are inflated in. This enables the equipment to be placed under bench seats or in anchor wells.

The Antisink All-in-One system can be mounted inside your vessel, designed to activate automatically should water enter your boat.

Antisink Flipover

The Antisink Flip-Over is designed for mounting on a hardtop or targa bracket, ensuring your boat automatically rights itself in the event of a capsize. Much like the Antisink All-in-One, it offers the convenience of being housed in the same cassette, featuring a white cover for increased resistance to sunlight exposure.

Part No.	Description
AN-AIO-300	Antisink All-in-One, 300
AN-AIO-500	Antisink All-in-One, 500
AN-FLIPOVER	Antisink Flipover

ANTISINK LARGE BOATS

Similar to the All-in-One solution for smaller vessels, Antisink's Large Boats system can be installed inside your vessel, ready to activate automatically should water enter your boat.

Part No.	Description
AN-LB-20000N	Antisink Large Boats 20000N
AN-LB-30000N	Antisink Large Boats 30000N

ANTISINK RESCUE KIT

The Antisink Rescue Kit is a portable system specially developed to rescue sinking vessels. The kit comprises two compact suitcases, each with a vital role to play. The first suitcase houses three buoyancy bags and hoses, while the second contains three fully "charged" CO2 bottles. Each suitcase weighs under 20 kgs, ensuring easy deployment in maritime emergencies.

Part No.	Description
AN-RKC-C02	Antisink Rescue Kit Complete CO2

RESCUE BOATS

The NARWHAL SOLAS series is currently comprised of 3 models, ranging from 4.20 to 7.50 meters. The SV-420 and SV-480 models have been recently adapted to conform the latest SOLAS requirements, improving also their engine and towing capabilities.

SV-420 STANDARD EQUIPMENT

- GRP unsinkable hull
- Polypropylene/aluminum transom plates
- Mooring/towing & lifting rings
- PU Polyurethane Buoyancy tube
- Automatic relief valves
- Aluminum boat hook-paddle
- Retainers for fuel tank
- Folding fisherman benches
- Bowdodger
- Pocket for line
- Bow locker for equipment
- "D" rings with rope
- Reinforced wide rubbing strake fender
- Fastening for righting rope
- Pocket for position light
- Reflective SOLAS labels
- Reinforced stern cones

Part No.	Description
SV-420	SOLAS Rescue Boat 420cm

SV-480 STANDARD EQUIPMENT

- GRP unsinkable hull
- Polypropylene/aluminum transom plates
- Mooring/towing & lifting rings
- PU Polyurethane Buoyancy tube
- Automatic relief valves
- Aluminum boat hook-paddle
- Retainers for fuel tank
- Folding fisherman benches
- Bowdodger
- Pocket for line
- Bow locker for equipment
- "D" rings with rope
- Reinforced wide rubbing strake fender
- Fastening for righting rope
- Pocket for position light
- Reflective SOLAS labels
- Reinforced stern cones

Part No.	Description
SV-480	SOLAS Rescue Boat 480cm

SV-750 STANDARD EQUIPMENT

- Hydraulic steering
- CO2 bottle
- Stainless steel Roll bar
- Navigation lights
- Self-righting balloon
- Jockey seat three places
- 2 Jockey seats two places (each)
- Tight capsules
- Towing rope
- Aluminum boat hook-paddle
- 6 carrying handles
- Batteries
- 5 inflatable valves
- Pressure relief valves
- Reinforced strake fender
- 4 four legged slings
- Stretcher
- Fuel tank 300 lt. w/level gauge
- Locker for SOLAS equipment

*Motors Supplied Separately

Part No.	Description
SV-750	SOLAS Rescue Boat 750cm

Fassmer fast rescue boats and rescue boats are designed to be immediately fired up and fully available whenever necessary.

FAST ALL-ROUNDERS

Fassmer combined rescue and fast rescue boats for ferries and cruise ships are designed to be immediately fired up and fully available under harsh conditions, profiting from Fassmer's longstanding experience in the passenger business. They are the backbone of a quick, safe and successful person-over-board-maneuver.

- Outboard or inboard engine
- Fixed or inflatable self-rigging devices
- Different propulsion systems available
- Fully IMO/SOLAS certified
- Exceptional sea-keeping characteristics
- Fiberglass-reinforced polyester resin
- Soft-foam and corner fenders
- Easy to maintain

Please Contact Us For Details

RESCUE BOATS CONT.

The NARWHAL FRB-700 Rigid Inflatable Fast Rescue Boat is designed for rescue operations on the high seas. Its wide console protects the pilot against the wind and sea spray, whilst providing sufficient space to install state-of-the-art electronic equipment, as well as the engine compartment.

FRB-700 STANDARD EQUIPMENT

- Reinforced PU Buoyancy Tube
- Mooring rope
- Rope line guide
- Single Point Hoisting System
- Henriksen Quick Release Mechanism
- Self Righting System (CO2 operated)
- 200L Fuel Tank
- SUPER-150 Console
- 2 x JS1 Jockey Seats
- Stainless Steel Leaning Post with upholstered support
- Lifebuoy with rope

Engine

- Inboard Diesel: VOLVO D3-220 HP (SOLAS)
- Propulsion: Hamilton HJ213 Jet

Optional

- SOLAS Approved Stretcher
- SOLAS Approved Electronic Equipment Pack

Part No.	Description
FRB-700	SOLAS Rigid Inflated Fast Rescue Boat

Lifeboats must save people from ships or offshore platforms under the worst possible conditions. They must withstand the heaviest weather and sea conditions and be available at any time.

CLR LIFE BOAT

The CLR totally enclosed lifeboat is a modular design which enables a high degree of customization in any commercial or offshore setting.

- Up to four embarkation doors
- Best stability and self-righting properties
- Reliable propulsion system
- Fire-retardant glass-fiber composite complete with sprinkler system
- Rescue platform aft, hatch at helmsman's position, 360° view for helmsman, all doors with easy stretcher access

Please Contact Us For Details

CLX LIFEBOAT

The CLX totally enclosed lifeboats are an addition to the CLR boat family.

- Up to six embarkation doors
- Best stability and self-righting properties
- Reliable propulsion system
- Fire-retardant glass-fiber composite complete with sprinkler system
- Rescue platform aft, hatch at helmsman's position, 360° view for helmsman, all doors with easy stretcher access

Please Contact Us For Details

FREEFALL LIFEBOAT

A freefall lifeboat is the fastest and safest means of escape in the case of a marine emergency.

- Central embarkation door aft
- Best stability and self-righting properties: space between inner and outer shell filled with buoyancy foam
- Reliable propulsion system
- Fire-retardant glass-fiber composite
- Rescue platform aft, hatch at helmsman's position, 360° degree view for helmsman, all doors with easy stretcher access
- Dry cargo or tanker version available

DAVITS

Global Davit GmbH was founded in 1999 to meet the specific demands and is ready to design and produce Ready-Made Solutions & special tailor-made systems to meet the special requirements for marine vessels.

LIFERAFT HANDLING DAVITS

The Liferaft Cranes are the simplest execution of manually driven slewing cranes for liferafts available. This kind of davit is available in different sizes, suitable to handle all available sizes of davit-launched liferafts from 12 person capacity up to 39 person capacity.

Each system consists of:

- pedestal suitable for welding to deck
- column with integrated manually driven slewing gear
- arm in box shape construction
- liferaft winch with centrifugal brake (optionally with electric motor for hoisting operations)
- wire rope in galvanized (anti-corrosion) non-rotating steel
- automatic release stainless steel hook
- remote control of the stop-go type

[Please Contact Us For Details](#)

PIVOT DAVIT SYSTEM

The pivot davits for rescue boat handling is very low-build and combines a low weight with an extreme low centre of gravity; with turning out/in on hydraulic power. These davits are available in three different standard sizes for boats with a launching load from 15kN up to 36kN.

[Please Contact Us For Details](#)

FAST RESCUE BOAT DAVITS

The Fast Rescue Boat Davits are the pivot davit systems for the handling of fast rescue boats, with turning-out/ in on hydraulic power. The systems are very low-build and combine a low weight with an extreme low centre of gravity.

Each system consists of:

- arm in box shape construction
- fast rescue boat winch with centrifugal brake and hydraulic motor with variable displacement
- hydraulic system with accumulator, pressure control system and full automatic wave compensation unit
- electric system with starter box and pushbutton box for on-deck use

[Please Contact Us For Details](#)

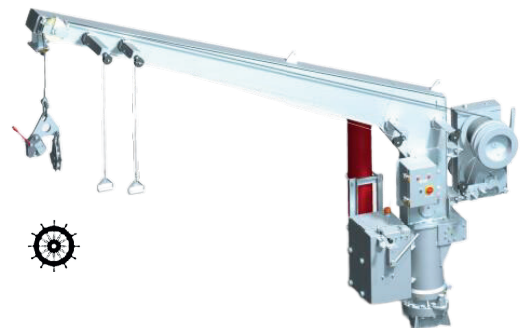

SLEWING CRANES

These Slewing Cranes are the simplest executions of manually driven slewing cranes for rescue boats available. This type of crane is available for boats and liferafts up to an empty fully equipped weight of approx. 10kN up to 37kN .

Each system consists of:

- pedestal suitable for welding to deck
- column with integrated manually (Rms.) or hydraulically (Rhs.) driven slewing gear
- arm in box shape construction
- rescue boat winch with centrifugal brake and electric motor in IP 56
- only Rhs. type: hydraulic system with accumulator and pressure control system
- electric system incl. stainless steel starter box with push buttons
- wire rope in galvanized (anti-corrosion) non-rotating steel
- stainless steel hook for off-load release or suspension link (in case that the hook is installed at the boat) remote control of the stop-go type

[Please Contact Us For Details](#)

RELEASE SYSTEMS

RESCUE BOAT OFF-LOAD RELEASE HOOK

The HRN.28LT is suitable for handling 1-point suspended boats with safe working load up to 28kN. The OFF-load release hook type meets the latest amendments of the SOLAS/LSA requirements. The hook is available with MED approval as well as with the USCG approval certificate.

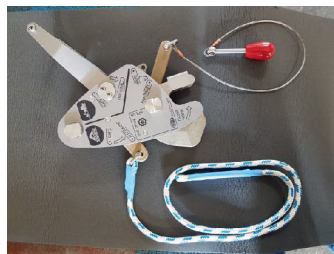

Part No.	Description
GD-M4-51010A	Type HRN.28LT Rescue Boat Hook

SURVIVAL CRAFT ON/OFF LOAD RELEASE HOOK

The HRL.26 is suitable for handling davit-launched liferafts as well as 1-point suspended rescue boats and FRC's with safe working load up to 26kN.

The combined release hook type meets the latest amendments of the SOLAS/LSA requirements. The hook is approved for use in environmental conditions down to -40°C. The hook is available with TC, MED and USCG approval certificate upon request.

Part No.	Description
GD-HRL.26	Type HRL.26 Combined Off-Load & Auto Hook

SEA CATCH RELEASE HOOKS

Sea Catch Release Hooks are a revolutionary solution designed to meet the challenges posed by heavy sea conditions, corrosive marine environments, quick release kickback, inadvertent release, and the occasional shock and lockup of unanticipated overload.

Innovative Features:

- No Springs
- Common Shackle Connection
- Multi-Directional Release
- Low Friction Releasing
- Hitch-Pin Safety Lock

General Sea Catch Features:

- Perpendicular or Parallel Release Directions
- Hitch Pin Lock for Device Locking Safety
- Precision-Cut Aerospace Grade Stainless Steel Parts
- Low Friction, Low Effort Lanyard-Style Release
- On Load/Off Load Releasing
- All Parts 100% Stainless Steel

MARINE EVACUATION SYSTEMS

LSA MARINE EVACUATION SYSTEMS

Marine Evacuation Systems (MES) by LSA provide rapid and safe evacuation which delivers passengers and crew directly into large capacity liferafts.

Each Marine Evacuation System (MES) Comprises:

- Inflatable inclined evacuation slide
- Lightweight stowage cradle manufactured in marine grade aluminium.
- Unique design provides considerable strength to the slide.
- Multi air-holding compartment design enhances structural integrity.
- Slide manufactured from advanced polyurethane coated nylon fabrics.
- Range of slide lengths to accommodate all evacuation heights up to 13.6m.
- Slide evacuation path always clear and usable. No risk of blockages.
- Dry-shod evacuation.
- Clear line of sight from top of the slide to the liferaft at all times increases confidence of evacuees and ability of crew to control the evacuation.

Strength

- Manufactured from durable, lightweight and abrasion resistant advanced polyurethane coated nylon fabric.
- Unique multi air-holding compartment design enhances structural integrity.

Flexibility

- Manufactured from durable, lightweight and abrasion resistant advanced polyurethane coated nylon fabric.
- Unique multi air-holding compartment design enhances structural integrity.

Please Contact Us For Details

MES CONT.

LSA MES FOR MILITARY APPLICATIONS

Ease of Operation

In a marine emergency every second is critical, even more so if that marine emergency is in a combat zone. LSA MES saves you time.

LSA MES is deployed locally at the MES station or remotely released from the vessel's operating compartment.

With minimal training, one crew person can deploy an LSA MES.

A unique fixed bowsing line arrangement means once the MES is deployed, no winching or further seamanship is required to make the MES operational.

LSA MES is deployed, fully operational and ready

Safe and Rapid Evacuation

The speed of evacuation for military personnel is critical.

- LSA MES is fully tested and approved to safely evacuate up to 600 personnel in less than 30 minutes per MES station.
- LSA MES is capable of safely and rapidly evacuating all military and non-military personnel regardless of age, gender, size, physical capability or even injury.
- Military personnel can easily transport supplies, weapons and full survival kits with them down the evacuation slide. There is no risk of personnel being stopped or trapped on the slide. The evacuation is continuous and evacuation rate is never compromised.
- It is also possible to safely lower or recover a seriously injured person on a rescue stretcher down the MES inclined slide.

DACON SCRAMBLE NET

The Dacon Rescue Scoop is a semi-rigid, maneuverable rescue net operated by a standard deck crane. The rescue net is used to recover distressed persons from the water when weather or other factors make it difficult or too risky to launch a rescue craft.

- Dacon Rescue Scoop is a large crane operated rescue “net” for horizontal recovery of casualties from the water
- Gentle and effective retrieval of casualties
- Rescue reach of 4-6 m
- Light- weight and flexible
- Stows along railing or bulwark, or integrated in the cargo rail
- Robust design and long life expectancy
- 5 year manufacturer’s guarantee

[Please Contact Us For Details](#)

RECOVERY DEVICES

DACON RESCUE FRAME

The Dacon Rescue Frame is a manual rescue net used on rescue crafts for gentle and effective recovery of exhausted, seriously injured or even unconscious persons from the water. The rescue net enables a man overboard recovery in a horizontal position and is quick and easy to handle for rescue personnel. A horizontal recovery position ensures a full body support, which might be decisive in reducing the possibility of shock and aggravation of injuries associated with the recovery of hypothermic and seriously injured casualties.

A manual recovery system for gentle and effective rescue of casualties

- Quick, safe and effective retrieval saves time for the rescue personnel.
- Doubles as an effective scrambling net for persons able to climb on board.
- Established 20 years with a proven track record
- Folds for stowage on deck or railing. Always ready for immediate deployment.
- Detaches in seconds for use as an effective transport stretcher when required.
- Requires a minimum of space on board. Will not obstruct passage even on small rescue craft.

MEDICAL ASPECT

The person is recovered in a horizontal position with full-length body support. This will reduce the possibility of shock and aggravation of injuries associated with the recovery of hypothermic and seriously injured casualties from the water.

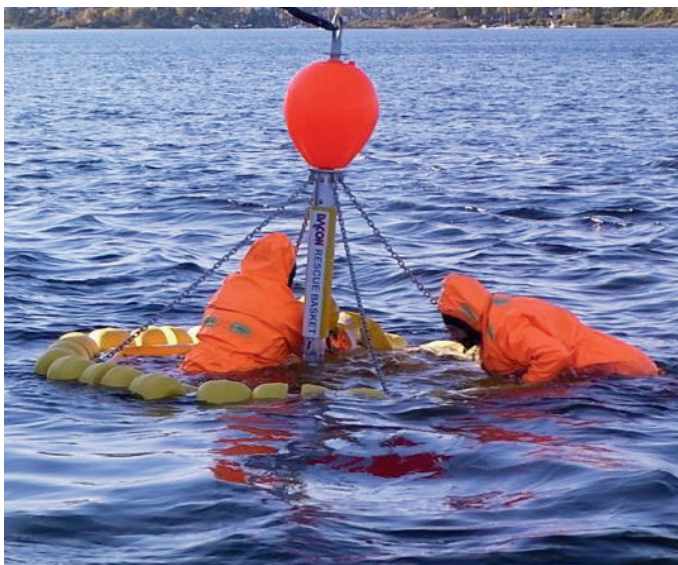

[Please Contact Us For Details](#)

Innovating maritime rescue equipment for more than 30 years. Dacon manufactures man-overboard rescue systems for many types of vessels.

DACON RESCUE BASKET

The Rescue Basket is a stable and effective power-assisted rescue basket with a 30+ years track record. The Basket is completely padded for protection of occupants. A large float in the mast prevents capsizing. Metal net covered sides for safety.

- Stable and effective method of recovery
- Perfect for mass rescue situations
- Rugged aluminum construction with soft padding
- Low floating position for easy entry
- Quick- folding lifting mast for convenient stowage
- Fenders rotate for easy recovery of casualties and for protection when hauled against the ship side.

DC-RSA700	Dacon Rescue Scoop 7m

TRANSPORT BASKETS

The FROG is designed with cutting-edge safety features offering extensive protection. The FROG raised safety standards above anything else on the market.

FROG RANGE

Also offering stretcher-carrying capabilities, the FROG-6 is a versatile and robust transfer device delivering value and comprehensive safety to crew transfer operations.

- Increased efficiency, as vessels and cranes are tied up for less time.
- Seating mounted on coil springs, combined with gas dampers, protects passengers from vertical impacts (heavy landings).
- Reduced risk as vessels spend less time working in close proximity to offshore structures.
- Small footprint with capacity for six people.
- Rapid change to MedEvac mode allows for quick evacuation of a casualty.

Please Contact Us For Details

FROG-XT RANGE

Designed for the most extreme scenarios and offering advanced passenger protection, the FROG-XT represents a revolution in crane transfer.

- Spring and hydraulic damping system, and shock absorbing seats mitigate heavy vertical impacts.
- Stainless steel frame and polyethylene buoyancy panels provide protection against side impacts.
- Easy-use harnesses protect against falling, reinforced to minimize the risk of tangled straps.
- Ergonomically designed seating and spatial layout for passenger comfort and security.
- Rapid change to MedEvac mode allows for quick evacuation of a casualty.

BILLY PUGH X-904 TRANSPORT BASKET

The X-904 is the most user-friendly and safest way to transfer personnel via crane in an offshore environment.

- ABS Certification Report available
- Collapsible for storage & shipping
- Overhead protection
- Refurbishment program
- Shock absorbing bottom
- Non-slip floor Lightweight aluminum frame construction
- Double braid polydacron rope coated in urethane with stainless wire rope center
- Comes standard with 20ft. stabilizer & load line
- Training DVD
- Stretcher space provided
- Designated storage space

Part No.	Description
BP-X-904-4	Offshore 4 Personnel Transfer Basket
BP-X-904-6	Offshore 6 Personnel Transfer Basket
BP-X-904-8	Offshore 8 Personnel Transfer Basket
BP-X-904-10	Offshore 10 Personnel Transfer Basket
BP-X-904-12	Offshore 12 Personnel Transfer Basket

BILLY PUGH X-800 TRANSPORT BASKET

The Billy Pugh Co. personnel net has been a symbol of the offshore oil and gas industry for over 50 years. It set the standard for safety and efficiency in crane transfers. Its reputation for efficiency, safety and affordability has been unmatched for decades. X-800 is designed for offshore operations that need a small footprint for their personnel basket.

- Servicing offshore industry for over 50 years.
- Collapsible for easy storage
- Affordable
- More offshore safe transfers than any personnel transfer device in history
- Inducted into the Offshore Oil Hall of Fame

TRAINING DUMMIES

DACON RESCUE DUMMY

The Dacon Rescue Dummy is one of the best and most realistic training dummies developed for water rescue training. Unlike other training Dummies, the Dacon Rescue Dummy has a realistic weight and high resemblance to a real human body, making for more realistic training for in-water rescue.

- Realistic height (1,9 m) and weight (up to 85 kg)
- Realistic joints with restricted limb movements
- Extremely rugged - Survives a drop from a platform's helicopter deck and other rough usage
- Adjustable to float horizontally or vertically in the water
- Available with a negative buoyancy for underwater SAR training
- Can be provided with a yellow (standard) or grey (for advanced SAR) PVC coverall.

Part No.	Description
DC-RESDUM	Dacon Rescue Dummy

HELMSMAN CHAIRS

Since 1978, Cleemann Chair-Systems has been providing highly sophisticated, functional and extremely comfortable pilot chair systems to shipbuilders and shipowners all over the world.

CLEEMAN NAUTIC STAR

Serial Features

- Mechanical Suspension
- Weight adjustment
- Adjustable headrest
- Foldable armrests
- Adjustable backrest
- Seat rotates 360°
- Lumbar Support
- Foldable footrest

Please Contact Us For Details

CLEEMAN NAUTIC PRO STAR

Serial Features

- Mechanical suspension
- Weight adjustment
- High comfort-backrest
- Foldable armrests
- Adjustable backrest
- Seat rotates 360°
- Lumbar Support
- Foldable footrest

Please Contact Us For Details

CLEEMAN NAUTIC PRO

Serial Features

- High comfort-backrest
- Foldable armrests
- Seat angle adjustment
- Adjustable backrest
- Seat rotates 360°
- Foldable footrest
- Fabric or real leather, black

FUEL TREATMENTS

FUEL RIGHT 15K

Today's ULSD (ultra low sulfur diesel) blends have changed the fuel industry considerably. Stabilizers are less relevant to the ULSD blends and biocides do not dissolve or eliminate sludge problems. Polishing diesel fuel simply centrifuges sludge out of the fuel into a filter system but does not resolve sludge issues.

Fuel Right Chemistry is unique and uses a powerful combination of amines to slowly dissolve existing sludge, while preventing growth and build-up of new sludge. These amines also protect tanks and fuel system components from corrosion, even in the presence of free water and remaining old sludge. Fuel Right also improves lubricity thus extending the service life of injection pumps and other high wear fuel components. Fuel Right contains glycol ether, a necessary ingredient that protects against fuel line freeze-ups in cold weather climates.

- Dissolves, Disperses & Prevents Bacterial Contamination
- More Effective than Biocides or Conventional Additives
- Cleans Tanks, Fuel Lines, Filters and Strainers
- Improves Fuel Economy & Reduces Exhaust Particulate
- Restores Fuel Lubricity & Stabilizes Fuel
- Provides a Microscopic Coating to Prevent Corrosion
- Warranty Safe for All Diesel Engines
- EPA Registered

Bulk Treatment

Bulk treatment means treating at a low dose rate all of the fuel, all of the time. For such treatment, use 1:15,000 as the treatment ratio. (1 litre of Fuel Right treats 15,000 litres of fuel) It is not recommended to bulk treat only part of the time as that can produce an incomplete protective film and lead to localized corrosion.

Shock Treatment

Shock treatment ratio is 1:6,000. (1 litre of Fuel Right treats 6,000 litres of fuel) Periodic shock treatment once or twice per year is recommended for systems with ongoing sludge problems. Shock treatment once or twice per year is usually adequate. For small to medium sized tanks, treat for the size of the tank - not the amount of fuel in the tank.

FU-FR189L15K	Fuel Right 15K 1.89L

VESSEL MAINTENANCE

PETROWRAP ANTI-CORROSION TAPE

PetroWrap Anti-Corrosion Tape consists of a non-woven, stitch bonded, synthetic fabric which has been fully impregnated with neutral petrolatum based compounds and inert fillers. PetroWrap Anti-Corrosion Tape will not crack, peel, or harden and therefore remains impermeable to moisture and requires no maintenance. PetroWrap ensures easy site application with-out heating, even in the coldest temperatures, and can be applied on damp and indifferently prepared surfaces.

Part No.	Description
IN-9170	Petro Tape, 2"
IN-9171	Petro Tape, 4"
IN-9180	Petro-Wrap Primer, 4kg

NOSPRAY SEALING TAPE

NoSpray is a type approved aluminum/glass cloth jacketing system designed to prevent the flammable spray of hot oil which can come in contact with hot surfaces thus causing fires.

Part No.	Description
IN-Nospray100	No-Spray Anti-Splash Tape, 100mmx10m
IN-NOSPRAY140	No-Spray Anti-Splash Tape, 140mmx10m
IN-NOSPRAY50	No-Spray Anti-Splash Tape, 50mmx10m
IN-NOSPRAY35	No-Spray Anti-Splash Tape, 35mmx10m

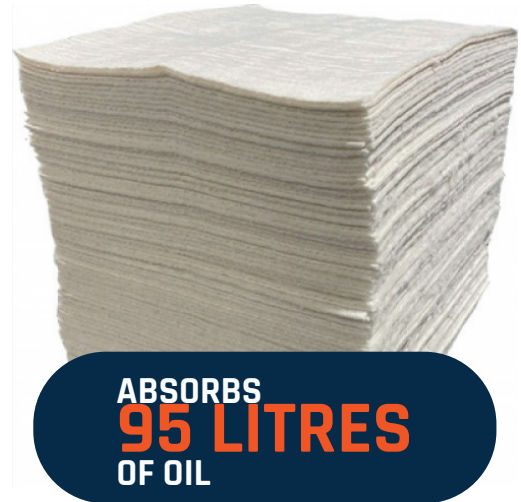

SORBENTS

AIRMATRIX™

These pads have a fabric weight of 286 gsm with 100 pads in a bale, offering a premium sorbent with a heavier per square meter fabric.

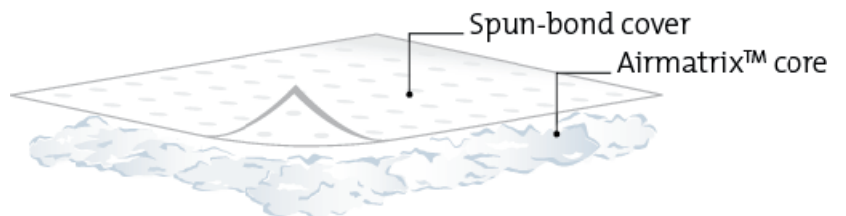

Airmatrix™ is a premium 100% polypropylene oil only sorbent. This very soft and durable product resists water but quickly absorbs oil-based fluids including oils, gasoline, kerosine and diesel fuel. A tough spun-bond top lamination layer reduces lint and increases durability. Air-laid construction creates a consistent, extra strong, highly absorbent internal web structure. ESP uses only ultra-long poly recycled fibers which makes this absorbent stronger and more absorbent than any other industry standard recycled products.

Each pad is 41 cm wide by 46 cm long. The pads are supplied in a clear plastic bag.

Key Features

- Premium quality Oil only synthetic
- Uses only high-value, high-quality recycled synthetic materials
- Superior strength because of the top and-bottom layers of lamination
- Virtually lint free
- Very drapable, extremely soft

Part No.

EV-1AMWPL-HL

Description

Pads, Airmatrix, Double Laminated, Oil Only, Heavy-Weight, White, 100pcs

MELTBLOWN, SORBENT PADS

These are by far the most popular sorbent we carry. On average we sell four times more pads than all our other absorbents combined. These are available in different sizes bails as well as weights. Meltblown is claimed to hold up to 12 times its own weight when absorbing petroleum-based liquids. To achieve these high numbers, the fibers must have a large amount of air space (loft) between them to allow high quantities of fluid retention.

Meltblown Oil-Only

Meltblown Oil only is the best to use where a large amount of water contains some oil. Some industry sector examples are offshore oil and gas rigs, harbours, and shipping. Also ponds and lakes are ideally suited.

Meltblown Universal

Meltblown Universal is best sorbent to select for everyday maintenance situations. These pads will absorb both water and oil based fluids making them ideal for cool-ant spills, ethanol, pesticides and antifreeze.

Meltblown Universal

Meltblown Chemical preforms identically to the Meltblown Universal, but is manufactured with high visibility yellow pigment added. The yellow signifies that they are to be used with aggressive or unknown chemicals.

Our production method for Meltblown creates very fine fibers of a consistent size which, when combined with high loft, gives our Meltblown absorbents excellent performance and durability.

Part No.

Description

EV-3MBWPB-CTR	Pads, Meltblown, Sonic Bonded, Oil Only, Single-Weight, White, 200pcs
EV-2MBWPB-CTR	Pads, Meltblown, Sonic Bonded, Oil-Only, Medium-Weight, White, 100pcs
EV-2MBGPB-CTR	Pads, Meltblown, Sonic Bonded, Universal, Medium-Weight, Grey, 100pcs
EV-1MBYPB	Pads, Meltblown, Sonic Bonded, Chemical, Heavy-Weight, Yellow, 100pcs

SORBENTS CONT.

SORBENT ROLLS & SPLIT ROLLS

Primarily designed to cover large areas and walkways. Large spill containment can also be effectively and rapidly handled with the use of rolls. Perforated spilt rolls can be an effective way of dispensing pads by tearing off the pad size at each perforation. Split Rolls are half the width of full rolls.

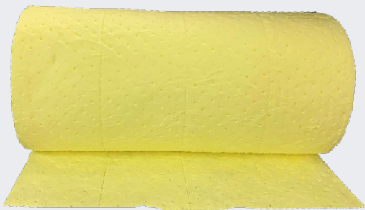

Meltblown Oil-Only

Meltblown Oil only is the best to use where a large amount of water contains some oil. Some industry sector examples are offshore oil and gas rigs, harbours, and shipping. Also ponds and lakes are ideally suited.

Meltblown Universal

Meltblown Universal is best sorbent to select for everyday maintenance situations. These pads will absorb both water and oil based fluids making them ideal for cool-ant spills, ethanol, pesticides and antifreeze.

Meltblown Universal

Meltblown Chemical performs identically to the Meltblown Universal, but is manufactured with high visibility yellow pigment added. The yellow signifies that they are to be used with aggressive or unknown chemicals.

Our production method for Meltblown creates very fine fibers of a consistent size which, when combined with high loft, gives our Meltblown absorbents excellent performance and durability.

SPAGHETTI BOOM

Absorbent boom is very effective at retrieving and offering some containment for marine based spills. Comprising of an outer plastic netting that contains a spun-bond inner sock which in turn holds a 100% hydrophobic scrap core.

The booms feature rust proof snap hooks 24" in from each end along with sturdy rust proof rings at each end, so that multiple booms can be attached to each other to form longer barrages. A tough nylon rope also runs the entire length and is secured at each end with double clips to maintain a strong and durable product.

Part No.

EV-4WB00M510

EV-4WB00M810

Description

Spaghetti Boom, 5' x 10' (4pc)

Spaghetti Boom, 8' x 10' (4pc)

OIL SNARE

OilSnare utilizes the oil's natural stickiness to snare within thousands of plastic tentacles to pick up the oil. These products will typically recover from 20 to 60 times its own weight, depending on the viscosity of the oil. The thicker the oil the better it works.

OilSnare Singles are in bags of 30 units.

- Helpful with oil/water separators
- Easy capture of stray globs of oil on the water
- Handy for cleaning rocks and pilings.

OilSnare on a Rope comes on a 50' rope, with 30 OilSnare units attached.

- Sandy, rocky beach and marshland applications
- Can be secured to the shoreline.
- Easily retrieved.

SORBENTS CONT.

SOCKS

These socks feature a tough spun-bond outer sleeve that has a durable heat sealed seam running its entire length. Most socks are used around equipment in indoor environments and within spill kits.

Part No.	Description
EV-30WS34-SB	Socks, Oil Only, 3" x 4' (30pc)
EV-30GS34-SB	Socks, Universal, 3" x 4' (30pc)

PILLOWS

Pillows are used to absorb leaks that are too large for a pad. They are ideal for a range of uses and situations that involve heavy and light machinery. The absorbent fibers in pillows are made from 100% polypropylene particulate that is then sewn into a polyester spun bond case.

Part No.	Description
EV-10WPILL1818	Pillow, 18" x 18" (16pc)

BILGE BOOM

This absorbent bilge boom has been specifically designed for use in bilges and sumps. It is constructed from flexible 15" tubes filled with highly absorbent material, in an all-in-one construction. Oil-only booms are built to absorb petroleum-derived fluids but resist water.

Part No.	Description
EV-20WB00M515-S	Bilge Boom, 5" x 15" Single

MULTI-ZORB GRANULAR SORBENT

A universal granular absorbent used to clean up chemical spills. MultiZorb™ Outdoor, especially manufactured for outdoor use. A unique process has produced a heavier, very dense product that falls directly on the spill instead of blowing in the wind. On the market for one year and has become a product of choice for Fire Departments and HAZMAT Teams. All the same features as MultiZorb Granular Absorbent except with higher density and weight.

Part No.

Description

FI-MULTOD

Multizorb Outdoor 25lb

QUALISORB

Remarkable value Qualisorb® is the most efficient way to soak up liquid spills wherever you need to absorb unwanted liquid. Nothing is easier to use. Simply spread Qualisorb on spills and let it do the work! It really is that easy! Unlike clay products which become wet, sticky and heavy, Qualisorb stays dry and manageable, making it easy to remove.

SPILL KITS

VEHICLE & MOBILE SPILL KITS

Although we never like it, we all know that spills happen even when you have all the preventative methods in place. Being ready and having the ability to respond quickly is critical in keeping people and the environment safe while reducing downtime and complying with spill control regulations.

Vehicle Spill Kit

The spill kit is light in weight and easy to store in a small space. Stash them easily behind truck seats or in the toolbox. Great for indoor or outdoor use at construction sites or in off-road applications.

Hi-Vis Nylon Vehicle Spill Kit

This light weight yet tough zipper bag is perfect for transporting a quantity of sorbents to the site of a spill. Stash them easily behind truck seats or in the toolbox. Great for indoor or outdoor use at construction sites or in off-road applications.

5 Gallon Spill Kit

The drum container for this spill kit keeps the absorbents clean, dry and ready for use when needed. A clip top lid and a metal handle make for easy portability and quick deployment. Great for indoor or outdoor use and also to add extra support to larger spill kits.

Part No.	Description
DS-CSK-VEH-O	Bag, Vehicle Spill Kit - Oil Only

45 GALLON DRUM SPILL KITS

The drum container for this spill kit keeps the absorbents clean, dry and ready for use when needed. This large 45 Gallon drum offers a complete solution for emergency spills. Available in option for absorbing oil, universal or hazardous spills.

OVERPACK SPILL KITS

The drum container for this spill kit keeps the absorbents clean, dry and ready for use when needed. A large gauge threaded lid and rigid construction allows the drum to be used as an overpack.
