Latest Trail Work

We had a trail maintenance event on the wood chip trails of the Mainland Common despite the rain.

Spreading new wood chips.

Most of our group gathered out of the rain.

Annual General Meeting

We had a productive meeting where our members had the opportunity to hear from and ask questions to the HNWTB board and our guest speaker Jillian Ramsay from the [Ecology Action Centre](#).

We discussed what we have accomplished over the past year and how to address [proposed land development](#) threatening to destroy forests around Halifax.

Of greatest concern to us is the encroachment into [Sandy Lake](#) and the [Blue Mountain Birch Cove Lakes Wilderness Area](#) west of Highway 102.

Our members and guests attending the AGM.

Upcoming Events

We have another batch of wood chips and will be spreading them on the [Mainland Common Loop Trails](#) again. We invite everyone to come assist us with this trail maintenance.

The event will be from **9:30 AM to noon** on **Saturday, June 14, 2025**. We will be starting work from the trailhead on the [Mainland North Trail](#) and working our way deeper. The closest place to park will be the Mainland Common parking lot at [69 Westridge Dr.](#)

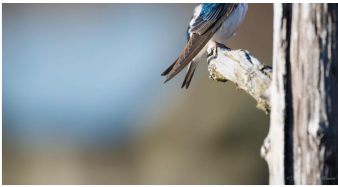

Several wheelbarrows will be used to transport the wood chips and rakes used to spread them on the trail. Some extra pairs of work gloves will be available and we encourage volunteers to bring their own if they have them.

Another batch of wood chips.

Species of the Month

Tree Swallow at [Belchers Marsh Park](#).
