Planning with Universal Storage: Quoin™

In today's fluid workplace, people need to be able to store items wherever. With discreet details and a clean aesthetic, Quoin provides practical metal storage solutions for both individual and shared space.

QUOIN FOR INDIVIDUALS

Credenzas, lockers and pedestals are the storage cornerstones to any well-planned individual workspace.

QUOIN FOR TEAMS

With keyless locking and a minimalist, streamlined design inside and out, Quoin provides a team's foundational storage needs while effortlessly blending into the open plan.

OPPOSITE PAGE Quoin[™] Raised storage; Remix[®] work chair; Antenna[®] Simple table. Essentials lead times apply.

NEW

Antenna Workspaces[™] Collection Power Beam

The freestanding, linkable or mobile Power Beam gives planning flexibility and range to address the ready-to-change mentality of today's workplace. Designed by Antenna Design.

Spine

Streamlined access to power with a beam only 3" wide, minimizing the space associated with power walls and allowing for more creativity and personalization around it. Power Beam can support the simplest to the most complex workstation settings.

Freestanding

A central hub for plug-and-play capability, the power beam can be surrounded by agile training tables or lounge furniture to support activity.

Mobile

Create the ultimate flexibility with the Power Beam on wheels, creating a usable space anywhere you need it.

Available at Standard Lead Times unless otherwise noted

Horsepower®

Serving the adaptive office with a place to sit and recharge, a structure for white boards and video displays and an efficient technology channel defining individual and group workspaces. Designed by Antenna Design.

a Mobile 🚚

Lightweight and mobile with integrated power strips makes it easy to move technology into any space. Pair with a Sapper[™] monitor arm to create a Technology Cart with on-demand screen access.

Essentials QuickShip lead times: limited offering, see pg. 97.

b Perch 🚛

Invites people to connect—to each other and their devices—offering a comfortable seat for casual exchanges and convenient access to power and USB outlets. *Essentials QuickShip lead times: limited offering, see pg. 97.*

c Sawhorse Desk

Compact units provide desk end support with discreet power access. Mobile optional.

Features a light, open service beam for primary workspaces–distributing power and data while supporting desks, suspended storage, and screens.

Rockwell Unscripted[®] Creative Wall[®]

A freestanding collection of walls and frames-drop in one wall or plan a series of fluid zones. A variety of surface materials and interactive elements bring a sense of play. Designed by Rockwell Group.

a Freestanding Wall

Delineate the open plan and maximize performance by dropping in a freestanding wall with a white board or TV monitor for easy collaboration. Available in six-inch increments from 6' to 16'W; 4"D; 90"H.

b Frame

Punctuate open spaces by framing specific areas with columns and crossbeams to build unique social and collaborative experiences. Available in two-inch increments from 64" to 288"W; headers 32" to 96"W; fins and drapery optional.

а

h

b

Interpole™

Delivers convenient power access with outlets available at lounge, table height or standing height; as well as distributes power from ceiling to Knoll systems and desks. Designed by Antenna Design.

a Display, Screen, and Storage Wall

Vertical planning with direct power access provides support for mounting video displays or screens and storage for enclosure, space delineating and ultimate function. Screens available in tackable fabric, laminate or glass; storage in laminate or wood. + Also available with Hub.

b Conduit

Manages power and communications from ceiling to floor or desk at any height for direct connection. **Essentials QuickShip** Applies to limited finishes and options only. Quantity limit 25.

Available at Essentials Lead Times select finishes and options may apply

Sapper[™] Monitor Arm Collection ∈

All varieties of mast heights, arm styles and mounting options for one to eight monitors or flat screen TV up to 50 lb. Designed by Richard Sapper.

Essentials QuickShip lead times: Jet Black and Bright White only, limited offering, see pg. 101.

Sapper XYZ® Monitor Arm Series 🛛 🚛

Pneumatic adjustment available in Single or Dual with standard or limited movement Sapper XYZ 30 or Crossbar in Bright White, Jet Black, Medium Grey and Silver. Designed by Richard Sapper. Essentials QuickShip lead times: Jet Black and Bright White only, limited offering, see pg. 101.

Adjustable Keyboard Supports 🛛 🚛

Pair any of three platforms with one of three mechanisms - Advanced Easy Lift, Short Easy Lift or Sit/Stand.

- a 21" Swivel
- b 21" Swivel HP
- c 27" Integrated

Essentials QuickShip lead times: Advanced Easy Lift mechanism only.

+ Also available with dual pivot option on Advanced Easy Lift and Sit/Stand mechanism.

NEW

Height-Adjustable Table Leg CPU Holder 🚛 Adjusts to hold CPU 4.8"-9.2"W. Essentials lead times.

Adjustable Sling CPU Holder Adjusts to hold CPU 6"-10"W; 14"-24"H.

and sustainability of Knoll products.

A selection of Knoll Office and KnollStudio products are Intertek certified Clean Air, most of which are certified GOLD, which imposes more rigorous standards than certified SII VFR.

contribute to LEED certification

Declare

Declare is a labeling program administered by the International Living Future Institute in support of Living Building Challenge projects. The label is a materials transparency platform and associated database that provides consumers with an at-a-glance reference for where a product is made, what it contains, and options for end-of-life disposal. Knoll is dedicated to achieving Declare labeling for our products.

> The Knoll constellation of products contributes to Imperatives under several Living Building Challenge performance Petals.

Forest Stewardship Council®

The Forest Stewardship Council® (FSC) is the international standard setting organization for defining and measuring a well-managed forest and providing traceability through a chain of custody certification. Knoll FSC certification (FSC® C028824) ensures that Knoll products bearing the FSC mark are manufactured with wood from forests that protect environmental. social and economic values. ESC principles represent the industry's most rigorous standards of forest stewardship.

The FSC Certified Standard Program covers all Knoll general office plan open systems, casegoods and tables, with the exception of certain products from the KnollStudio Collection. The standard applies to the core of all Knoll products with laminate and domestic cherry, maple, oak and walnut,

Full Circle[®]

As a result of furnishing projects, there is often a significant quantity of no-longer-needed facility assets that require decommissioning. The Knoll Full Circle Program can help do so in an economically, socially and environmentally responsible way. Full Circle is the first program in the contract furniture industry to provide comprehensive, integrated services for surplus furniture, fixtures and equipment (FF&E). Full Circle includes the traditional buy-back and re-selling of FF&E assets as a first alternative, but also includes repurposing, recycling and avoiding landfills through Energy-from-Waste conversion options for those assets that may not have re-sale value.

Intertek's Clean Air Certification validates the level of volatile organic compound (VOC) emissions from products. VOCs are gases emitted from products and include a variety of chemicals that may affect consumers' health in the short- and long-term. Both Intertek Clean Air GOLD and SILVER certifications ensure the user-health, safety

level[®] Certification

The level standard is a voluntary product standard developed by BIFMA, the Business and Institutional Furniture Manufacturer's Association, to support safe, healthy and sustainable workplace environments. The program establishes prerequisites, requires third party certification including audits of manufacturing plants and mandates annual reviews to maintain certifications.

Knoll submits products for level 3 certification, the highest rating, and is proud to have achieved level 3 certification for all of our principal workplace product lines.

BUILDING CHALLENGE

LIVING

Living Building Challeng

The International Living Future Institute's Living Building Challenge (LBC) is a rigorous design framework used to create built environments that positively impact human and natural systems. It encourages the design of healthy and beautiful spaces. Natural light, fresh air, healthy food, exposure to nature, integration with the surrounding community, and a focus on energy neutrality are integral elements of the program

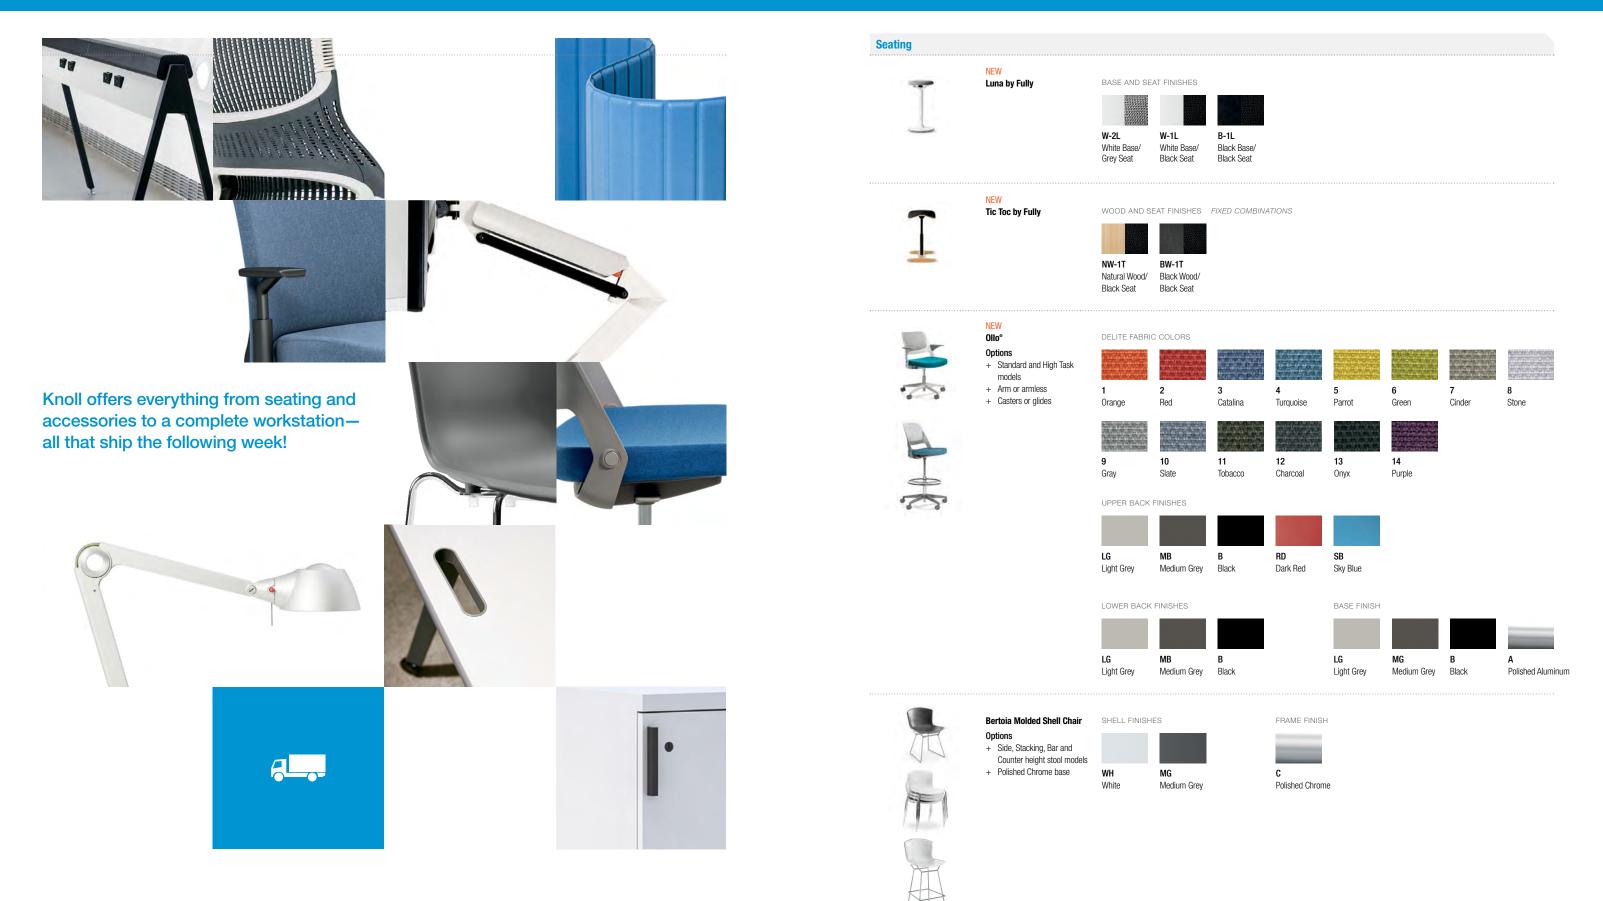

WFII™

The International WELL Building Institute's WELL Building Standard[™] (WELL) is a set of performance standards and research-backed strategies created to advance human health. happiness, and productivity in built environments. The WELL requirements are separated into ten Concepts that address. various influences on well-being: Air, Water, Nourishment, Light, Fitness, Temperature, Sound, Materials, Mind and Community.

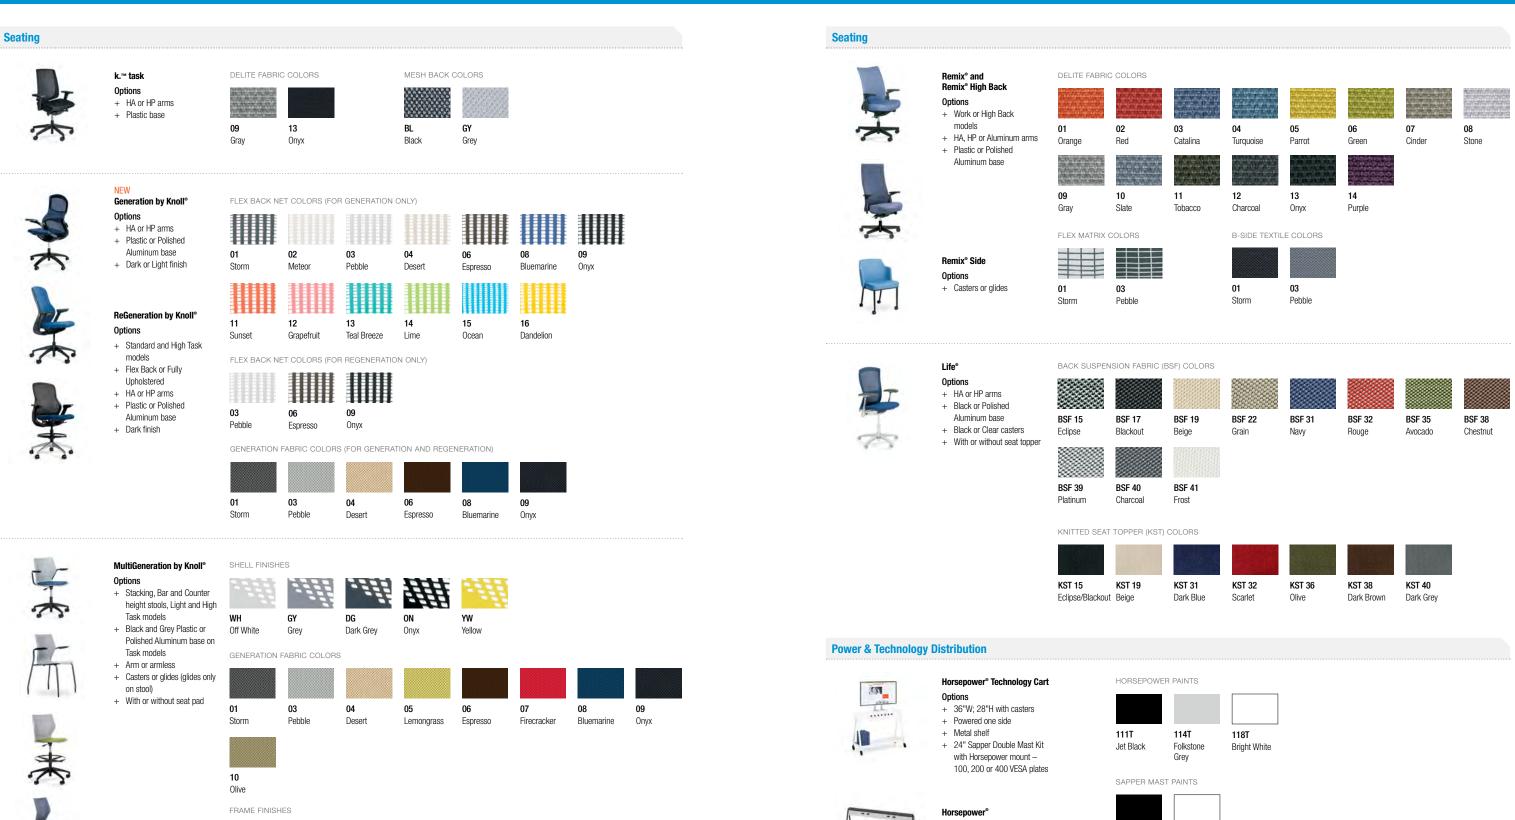

mindful Materials

Knoll Office, KnollStudio, KnollTextiles, Edelman Leather & Spinneybeck | Filzfelt have a presence in mindful MATERIALS an online library that contains aggregated information on human health and environmental impacts for products from leading manufacturers. Designed by stakeholders from across the building industry, the mindful MATERIALS Library is a practical product selection tool for design teams needing to incorporate product transparency information into their real-time decisions.

Who We Are

interSPACE Resource Group is a service based provider of Contract Business Furnishings. We assist our clients in selecting the solution best suited to their internal and external facility changes.

Our day-to-day objective is to exceed our client's expectation through our proven consultative process, seamless communication, and prompt service response.

Our philosophy encourages and fosters partnerships with our clients and our valued suppliers. With this mindset, we create interior architectural and/or furnishing solutions with innovation and enhanced flexibility in mind.

We measure our success day to day by how well we serve our customers. We are your choice for planning, sourcing, installing, and managing your facility's business furnishing requirements.

What We Do

The interSPACE Resource Group provides the following integrated services:

Furnishing Solutions

- Electronic Space Planning; 2D & 3D Renderings
- Business Furnishings & Accessories
- · Furnishing specifying and procurement
- Technical Specifications, Budget planning
- Project Management; internal and external
- · Asset management; furniture life cycle costs
- Repair, modify, refinish, dispose, trade-in existing assets
- Sales, Service, Rentals, Leasing
- "Test Drive Program"

Facility Support Solutions

- Modular Architectural Walls
- · Interior renovations; door relocating, wall-demounting
- Electrical & Data Wiring Coordination
- Interior & Exterior Painting
- Demolition and Disposal
- Relocation, expansion, downsizing, or consolidation
- Repair, Modify, Refurbish existing space
