Design-a-Crown \$3.00

This is a crown-shaped piece of sturdy, lightweight material that you can wear on your head once it's decorated. The surface feels smooth and slightly waxy at first, like a coated sheet of paper. It's black on top, but underneath, there's a hidden layer with bright rainbow colors. You can use a special tool, which feels like a small stick or stylus, to gently scratch designs into the black coating. As you scratch, the black surface comes off, revealing a colorful, shiny pattern underneath. The process makes a soft scraping sound and feels satisfying, like drawing or etching. The end result is a vibrant, personalized crown with rainbow designs peeking through where they've scratched.

Crazy Straw \$3.00

A crazy straw is a plastic straw with loops and spirals that make the liquid twist and turn as you drink. This one has a snowflake decoration attached near the top. The snowflake is flat, smooth, and shaped with pointed edges like a star. The straw comes in different colors and feels lightweight and slightly flexible.

Snowy Surprise Bag \$10.00

Snowy- surprise bag is a small package filled with fun, varied items. Inside, there are two stickers that you can peel and stick to surfaces. There are also temporary tattoos with a snowman design. You'll also find glow-in-the-dark snowflakes, which are flat and they glow softly in the dark after being exposed to light.

For treats, there's a single piece of chewy Maynards candy in a sealed wrapper, and two snack-sized pieces of chocolate, each wrapped in plastic.

The bag also includes a "Swiftie bracelet," which is a simple, stretchy band with small, smooth beads, and a "design a wand" craft. The wand starts black and feels smooth and sturdy. You use a wooden stylus to scratch into the surface, revealing rainbow colors underneath.

There is a 1 in 10 Chance of winning an additional prize from the surprise bags. The card would be located inside the packaging at the bottom, within the tissue paper that is inside.
