8 DIGITAL SELF-ANALYSIS TOOL

1 Title and description

"Analyze Your Hazard"

This digital flood hazard self-analysis tool is an indicator available on a website. It assesses the user's exposure to flood hazards depending on their situation.

2 Objective

Definition of the target objectives of the tool

This digital tool is intended to raise flood hazard awareness and identifies the major threats inherent to this hazard. A danger indicator and a quiz are available for users to gauge their flood hazard exposure. This tool helps an uninformed public become aware of flood hazards and develop their understanding, leading to better protective practices.
