

FALL 2026

PEDIATRIC EMERGENCY NURSING PROGRAM

The Pediatric Emergency Nursing Program provides specialty education for Registered Nurses (RNs) working in pediatric emergency care settings. This competency-based program offers specific content, skills, simulation, and clinical experiences in Nova Scotia pediatric emergency settings.

The program supports RNs to provide evidence-informed, high-quality, safe, and effective pediatric emergency care across Nova Scotia.

Program Dates:

Fall 2026: September 14, 2026 –
March 19, 2027

Winter 2027: January 11, 2027 – June
25, 2027

**Are you a
Registered
Nurse working
in an Emergency
Department that
serves pediatric
populations in
Nova Scotia?**

**Do you want to
increase your
competency in
pediatric
nursing care?
This may be the
course for you!**

- ❖ Skills and simulation woven throughout the program
- ❖ Consolidated clinical experiences to develop competencies
- ❖ Culminates in a full-day “Putting It All Together” in-person session in your zone

Learner Evaluation Comments:

“Seeing pediatric emergency care in action brought the course concepts to life in a way no textbook ever could.”

“This program challenged me to move beyond task-based nursing and truly understand the ‘why’ behind pediatric assessment and interventions.”
