SolutionIP X

SolutionIP X is the next generation in managed Wi-Fi gateway platforms. Easy to deploy and configure, our new modern, multi-tenant platform allows you to manage a multitude of property networks from one location.

Centralized Management

Manage all your sites in one place, regardless of size or complexity. Push updates easily using one pane of glass to centralize decision making and actions.

On-Premise and Cloud Solutions

Whether there is a requirement for on-prem or cloud services, SolutionIP X is the gateway of choice. It provides the flexibility of deploying either way depending on your environment.

Modern Portal Interface

You will feel right at home with our intuitive and easy-to-use interface. Created to coincide with industry standards, it makes updates easy for you.

Rapid Deployment

Whether you have a single site or are country-wide, the SolutionIP X admin tool allows for rapid and consistent configuration and deployment.

API Integrations

A full suite of APIs allow direct connection to your customer-centric applications, driving the user experience customers are looking for.

PMS Integrations

Our lengthy list of PMS integrations ensures that we will easily integrate with your existing PMS requirements, helping power your business decisions.

The Ultimate in Flexibility and Capacity

We place no limit on the size or number of your customer networks. From a single access point to thousands, SolutionIP X will help you grow your portfolio, outperforming any other hardware box.

Continuous Product Improvements

We strive for continuous improvement, adapting to changing trends and exceeding customer expectations. This is only the beginning of SolutionIP X and its capabilities. Partnering with us means a commitment to growth and development.

Hardware Agnostic

We integrate with industry-leading hardware, allowing you to make hardware decisions based on business needs, availability and performance.

Complex Business Rules

Our robust feature set easily accommodates your unique business requirements. Not all installations are created equal; we will ensure yours is customized to fit.

Reliable & Robust

With 25+ years of global, guest-facing experience, you will have confidence that your gateway and the SolutionInc team will help you handle any technical challenge that you may face.

Backup & Restore

Ensure up-time and avoid the risk of embarrassing and time-consuming outages with our back-up and restore features and functions.

Private Network Groups

For safety and security concerns, empower users to create their own personal and private networks with available PNG functionality.

Conference Creo

With our available conference management tool, managing conferences has never been easier. Create pre-scheduled events and manage changes in real-time.

IT'S TIME TO DITCH YOUR OLD TECH. CONTACT US ABOUT SWITCHING TO **THE WORLD'S LEADING GATEWAY.**
