## CRAFT TIME

### PAPER PLATE SWIMMING JELLYFISH

#### MATERIALS:

- paper plate
- small piece of cardboard
- blue paint
- pink paint (or color you'd like to paint your jellyfish)
- paintbrush or sponge brush
- colorful yarn
- googly eyes stickers
- jumbo craft stick with sticky adhesive
- craft knife (Adult use only!)
- glue or glue stick
- scissors

#### INSTRUCTIONS:

1. Gather your materials. Draw the shape of a jellyfish body on your small piece of cardboard and cut it out. Paint the piece with your pink paint, or whatever color you want your jellyfish to be. Set it aside to dry.
2. Paint the top of your paper plate (the side you eat on) with blue paint and paint your adhesive jumbo craft stick with blue paint. Set them aside to dry. (**NOTE:** If you don't have adhesive craft sticks you can just use a regular jumbo craft stick and glue.)
3. When your paper plate is dry, have an adult use a craft knife to cut a slit in the paper plate about 2/3 down the plate. This is the slit for your jellyfish.
4. Turn your jellyfish body over and add a line of glue at the bottom. Cut several strands of colorful yarn and place them down on the tacky glue. These are your jellyfish tentacles. Turn your swimming jellyfish craft over and place two googly eye stickers on it. Let the jellyfish craft dry completely before playing with it.
5. To make your jellyfish swim, place the craft down inside the slit in your paper plate. Hold the stick from behind the paper plate with one hand while stabilizing the paper plate with your other hand. When you move around the craft stick behind the paper plate your jellyfish swims around and around!
