Whether you train seasonally, recreationally, or professionally. To be able to help motivate and join others along their journey brings me great joy. I love what I do because for just one moment in time I can help others achieve their potential or simply brighten their day even if it's just one rep at a time."

Child & Youth Recreation Programs

About our recreation programs:

Whether your child is starting a sport for the first time, or they are looking to refine their skills at an introductory level, our programs are designed to engage kids in the fun, active and competitive nature of sports. We believe that children should participate in physical activity daily. We provide fun and exciting programs in an age-appropriate environment with instructional implementation from our trained staff.

What does your child need to bring?

- indoor sneakers
- activewear attire
(shorts and t-shirt recommended)
- water bottle
- shin guards are encouraged but not required.
(for any programs with a soccer component)

For all sports programs, equipment is supplied.

What to expect from our programs?

Preschool Recreation Programs (Ages 3 -4)

Children at this age have a short attention span and learn best when they can explore, experiment, and copy others. Our preschool programs are designed to provide children with a fun experience and keep them active. These classes have an instructional component but are focused on fun and physical activity. We encourage parents' participation to help connect with the instructors.

Child Recreation Programs (Between ages of 5 - 11)

At these ages, most children have the basic motor skills for simple organized sports. Our programs are designed for participants to learn new skills and promote personal growth and development, while engaging in a social sports setting. Each week includes focused instruction and as children progress, they will move into small group games to encourage teamwork. At this level in their skill development, children should be confident enough to participate in our sessions without the assistance of their parents. For older youth (ages 9-11), most are ready for more complex sports. Our programs focus on skill development, fun, and participation, not competition. We encourage our participants to provide our instructors with feedback as they gain new skills so that they can focus future sessions on sport-specific skills that they want to learn.

Youth Recreation Programs (Ages 10 – 15)

These development level programs are designed to build the foundations and skills necessary to move on to recreational or potentially club/school level teams. This level is for development of coordination and fine motor control. It is for children to enjoy practicing their skills they learn and seeing their personal growth in the selected sport.

PICKLEBALL SKILL LEVELS

LEVEL **1-2.5**

Pickleball players with a skill level in this range are just starting the game. These are new players with a basic grasp of the rules. They might be able to maintain a short rally but they're just beginning their pickleball journey.

LEVEL **2.5-3.5**

Players with this skill rating are skilled enough to compete in a pickleball tournament. They understand the fundamentals of pickleball and have a firm grasp on different pickleball strategies. Players at the higher end of this range are able to manipulate the ball skillfully with their paddles, pulling off specific shot strategies and returning their opponent's shots with purpose.

LEVEL **3+**

Anyone with a 3.0 rating or higher is an advanced pickleball player. They consistently win matches and could win pickleball tournaments. Players at this level know how to dominate the court, have a strong grasp of pickleball strategy, and rarely make unforced errors.

Swimming Lessons

LIFESAVING SOCIETY®

All of our swimming lessons follow the Lifesaving Society curriculum. See pages 36 - 40 for course codes and times.

BIBS & BUBBLES

Bibs & Bubbles structures in-water interaction between parent and child to stress the importance of play in developing water-positive attitudes and skills.

Activities and progressions are based on child development so parents register their child in the level appropriate for their age.

All Bibs & Bubbles classes are 30 minutes in length.

PRESCHOOL

The Preschool Program gives children a head start on learning to swim. Preschool programs develop an appreciation and healthy respect for the water before kids get in too deep. In our 5 basic aquatic progressions, we work to ensure 3-4 year olds become comfortable in the water and have fun developing a foundation of water skills.

Children start at Level 1 and progress to the next level based on the instructor's recommendation.

All Preschool classes are 30 minutes in length.

SWIMMER CLASSES

SWIMMER 1:

These beginners will become comfortable jumping into water with and without a life-jacket. They'll learn to open their eyes, exhale and hold their breath underwater. They'll work on floats, glides and kicking through the water on their front and back

SWIMMER 2:

These advanced beginners will jump into deeper water, and learn to be comfortable falling sideways into the water wearing a lifejacket. They'll be able to support themselves at the surface without an aid, learn whip kick, swim 10 m on their front and back, and be introduced to flutter kick interval training (4x5m).

SWIMMER 3:

These junior swimmers will dive and do in-water front somersaults and handstands. They'll work on 15 m of front crawl, back crawl and 10m of whip kick. Flutter kick interval training increases to 4 x 15m.

Swimming Lesson info

Frequently asked questions:

Q: How can I register for lessons?

A: You can register for lessons through Halifax MyRec or in person at the welcome desk. We do not take registrations over the phone. Online registration will give you the best chance at getting the spot you would like.

Q: What level should I register my child for?

A: Please consult the info on pages 8-10 and register your child for the level that best suits their skill level. If you need more info, please contact our Aquatics Coordinator at kempr@halifax.ca

Q: Do the levels matter?

A: Yes! It is very important that your child is in the correct level to have the best chance of success. Also registering your child in a level too high can be a safety risk and will have a negative effect on their experience at swimming lessons.

Q: The level I need to have my child in is full, what do I do?

A: Right now, the demand for lessons has out paced what we can supply. While we wish we could get every child into lessons, we are limited by staffing and pool space. Add your child's name to a wait list and we will contact you if a spot becomes available. Please do not register your child for the wrong level because there is space available; we will be unable to transfer them to their appropriate level.

Q: Why didn't my child get referred to the next level?

A: Participants move to the next level when they are proficient in their current level. The Life Saving Society sets benchmarks that must be achieved to complete the level. We do not use terms such as "pass" or "fail"; we use term such as "complete" or "incomplete". If a participant does not complete it simply means they need more time to work on skills and build a better foundation before moving to the next level. It is very common for a participant to be in a level for more than one session.

Q: What is your cancelation policy?

A: You can cancel up to 14 days before the start of your program. Please contact the Welcome Desk to cancel.
