### **Personalized Online Individual Profile on the TNS website**

TNS is very pleased to be able to feature the talented individuals of the theatre community throughout this province.

The office receives numerous requests asking about various theatre practitioners which led us to look into a way to have searchable profiles featured on our website. We are really looking forward to being able to direct someone who calls looking for talent to our site where they could learn far more about our members than we could ever tell them on the phone. We get calls looking for directors, stage managers, actors, designers, playwrights, workshop leaders regionally, nationally and internationally.

The new online profiles allow you to identify your areas of expertise, representation (if any), affiliations (if any), provide a bio, recent credits, contact information and 2 photos. Submitted profiles come to TNS for approval and once done, you will receive an email with all your login information so that you are able to update the profile at any time.
